2. Company E-mail: info@cleanrth.com
3. By Phone: Local 1-480-255-5113 or Toll Free 1-855-707-7075

Specifications

Product Dimensions: W-6in x H-3in x L-4in
 Power Input: 85-135V AC Plug-in Only 50Hz-60Hz
 Repelling Coverage: 5,000 Square Feet "Open Area"
 Power Consumption: 5 Watts
 Item Weight: 8.6 Ounces

EPA Est. No. 085464-CHN-001
 FCC CE RoHS RECYCLED HOME

ELITE

Mice & Rat Electronic Pest Repeller

INSTRUCTION - BOOKLET

We care about your results!

- ① Window Indicator Light - Lights up when Elite is plugged in and activated.
- ② Speakers - Project the rodent-repelling sounds.
- ● 100% Safe to use around all home appliances, along with Cats, Dogs, Birds and most household pets (please do not use around Rodent Type Pets).
- ● Simple Plug In and Start repelling-design.
- ● Covers 5,000 Square Feet "Open Area." Please read Step 3 of **Proper Placement & Coverage** for more information.
- ● Great for indoor use and can also be used outdoors with proper coverage from rain.
- ● Test button that allows you to hear the sounds at an audible level. Also includes a window light indicating the Elite is working.
- ● Uses Digital Turbulent Storm Ultrasonic Mouse and Rat Repelling Technology.

Not seeing adequate results at the 16 day mark of repelling? Please let us Help: info@cleanrth.com or 480-255-5113

This is your test button. This allows you to hear the sounds at an audible level.

Please make sure this Switch is Set so you can NOT hear the sounds.

If the Test Button is On and you're hearing the sounds: this device is Not Repelling. When your ELITE is properly repelling you should not hear sounds and see the window indicator light on.

Proper Placement and Coverage

1) Using the Elite Indoors

Place your Elite Pest Repeller as close as possible to the infestation. When placing the unit inside, you want to have the device facing the most open area of that room. This will allow the dedicated ultrasonic sounds to repel freely with a greater demand for results!

2) Using the Elite Outside

For outside use, please **shelter the Elite from rain**. When **using outside**, the sounds do not have walls to bounce off of (which allows the sounds to fully fill the area) so these **dedicated ultrasonic sounds** become **very directional**. So for outside use, please face the Elite directly **toward** the rodent problem area.

3) How much does 5,000 sq. ft. actually cover???

Think of it this way, if you took a warehouse with four walls, a ceiling, and it was all open area (no doors, walls, etc. to contend with) one Elite has the ability to cover this space up to 5,000 sq. ft. With that said, when contending with separate rooms, walls, doors, etc. you might need multiple Elite units to really dominate/repel the entire area.
