## *We Care About Your Results*

Hi, everyone, this is Ron with Cleanrth Products & we are dedicated to positive squirrel-repelling results.

If for some reason your results are not met at around the 16-20 day mark, please take the time to Contact Us.

We will move to a “Stage 2” worth of help/repelling your squirrel pest issue.

As a business owner, I understand the frustration of pesky squirrel problems & I wanted to let you know that we’re here to help you when a tough problem comes along.

Finally, I’d like to let you know that **1 Star Reviews really hurt our small company’s business.**  
If you do run into a problem, please if you would give us that second chance at resolving your squirrel issue. *We Have Solutions For the Real Tough Pesky Squirrel Issues!*

### Best Ways to Contact Us

1. If Ordered Online, it’s **“BEST”** to Contact Us via the website you ordered from (e.g., Amazon, Walmart, Sears, etc.)
2. Company E-mail: [info@cleanrth.com](mailto:info@cleanrth.com)
3. By Phone: Local 1-480-255-5113 or Toll Free 1-855-707-7075

## Three-Stage ComboSonic Squirrel Repellent

## QUICK - SETUP - GUIDE

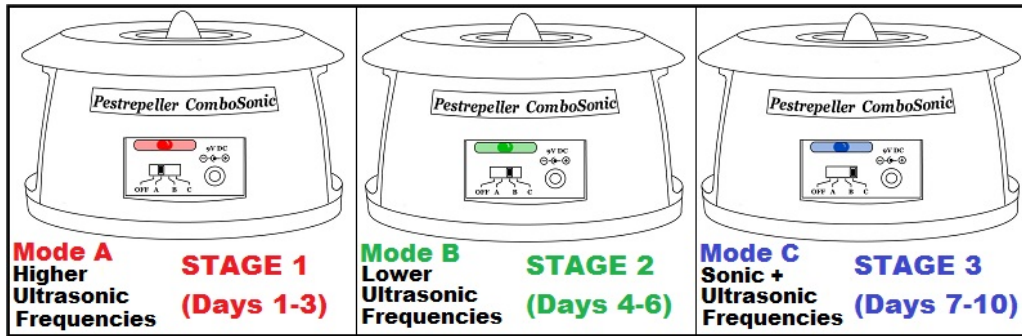

*We care about your results!*

Model #: PCS-101  
CE RoHS

# QUICK - SETUP - GUIDE

**Step 1** Remove the PCS-101 from its box and plug it into a standard US 120V electrical outlet that is close to the Squirrel Problem. Unfortunately, because of the vertical speaker, *this device is not waterproof*; please use a covered outlet that faces the most open area. The idea is to maximize the sound coverage, as soft objects can smother the sounds.

**Step 2** Begin the three-stage process detailed below:

**Stage 1** Slide the switch to **Mode A**. The **Red Light** will turn on, indicating that the PCS-101 is turned on & working. – **Note: Mode A is the least audible mode for most people & household pets.** –

**Stage 2** On Day 4, slide the switch to **Mode B**. The **Red Light** will turn off and a **Green Light** will turn on.

**Stage 3** On Day 7, slide the switch to **Mode C**. The **Green Light** will turn off and a **Blue Light** will turn on. – **Note: Mode C is the most audible mode for most people & household pets.** –

**Step 3** CHANGE IS GOOD. After 10 days, return to Step 2 and repeat stages 1-3.

Cycling through the three stages changes which ultrasonic frequency ranges are being emitted, making it nearly impossible for squirrels to continue hanging around.

**Step 4** The 16-20 day marks the turning point on what we do next. At this time, start to closely monitor to see if there is any more squirrel activity happening.

**If you do not notice any new activity:  
Great! Your squirrel issue should be solved.**

If there is still activity going on, then the next step is to Contact Us. We will help you make some changes to ensure your success.

**The BEST way to contact us is through your Amazon Account**

**Phone: 480-255-5113**

## SUMMARY

Squirrel issues will usually clear up within 14 -16 days when repelling with the PCS101. If you still notice activity after 2 weeks, this usually means there's a more severe issue than initially expected. Please contact us so that we can help you understand what's going on and let us help you move to the **Stage 2** of our **Squirrel Repelling program**.

**If your Squirrel Problem still persists after the 2 week mark.  
Please Contact us as we will Move to a Stage 2 worth of Help/Repelling**

**WE HAVE THE SOLUTION TO FIX THIS ISSUE :)**
