## Cleanrth Air : Ionic Air Purifier & Ozone Air Cleaner

### ① Air Cleanser Stage I : ON or OFF

**Stage I** removes airborne pollutants and purifies the air in a 500 sq. ft. area by generating Negative Ions. Negative ions are electrically-charged particles that bond with airborne contaminants. Once bonded, the contaminants are too heavy to float, so they fall harmlessly to the floor. The **Orange Light** ⑤ will stay on when Stage I is operating.

### ② Air Cleanser Stage II : ON or OFF

**Stage II** removes smells and purifies the air in a 500 sq. ft. area by generating safe, small amounts of Ozone. Ozone is known to break down the cells of odor-causing molecules – taking the odor with it! The **Blue Light** ⑤ will stay on when Stage II is operating.

### Optional Bonus Functions

#### ③ Internal Pest Deterrent : ON or OFF

**Internal Pest Deterrent** uses the existing wiring in your home or business. This technology to repel pests found within a structure's walls. The **Red Light** ⑤ will blink on and off when this mode is operating.

#### ④ Pest Deterrent : ON or OFF

**Pest Deterrent** deters pests such as rodents and insects by emitting ultrasonic sounds. The sounds will cover 5,000 sq. ft. of open, unobstructed area. The **Green Light** ⑤ will blink on and off when this mode is operating.

### ⑤ Speaker Indicator Lights

**Orange Light:** Stays on when Air Cleanser Stage I is On.

**Blue Light:** Stays on when Air Cleanser Stage II is On.

**Red Light:** Flashes when Internal Pest Deterrent is On.

**Green Light:** Flashes when Pest Deterrent is On.

### **For best air-freshening and cleaning results:**

Place one Cleanrth Air in each room – closing doors reduces air flow and effective cleaning range.

Put your Cleanrth Air in an outlet that faces the most *open, uncovered area of the room*. Furniture, curtains, etc. reduce air flow and effective cleaning range.

**Note:** When using the bonus pest-detering features, do not be alarmed if you notice more pest activity than usual. They are reacting to the Cleanrth Air, so they are trying to flee the area & find their way to a nicer environment.
