

# **CLEANRTH SUPER** **ADVANCED** Ultrasonic Bird Repeller

## *We Care About Your Results*

Hi, everyone, this is Ron with Cleanrth Products & we are dedicated to positive bird-repelling results.

If for some reason your results are not met at around the 16-20 day mark, please take the time to Contact Us.

We will move to a ***“Stage 2”*** worth of help/repelling your bird pest issue.

As a business owner, I understand the frustration of pesky bird problems & I wanted to let you know that we’re here to help you when a tough problem comes along.

***We Have Solutions For the Real Tough Pesky Bird Issues!***

### ***Best Ways to Contact Us***

1. If Ordered Online, it’s ***“BEST”*** to **Contact Us** via the **website** you ordered from (e.g., Amazon, Walmart, Lowes, etc.).
2. Company E-mail: [info@cleanrth.com](mailto:info@cleanrth.com)
3. By Phone: Local 1-480-255-5113 or Toll Free 1-855-707-7075

### **Specifications:**

Model: TSBR620 Weight: 14.2 ounces

Dimensions: H-6.75” W-6” L-4.25”

Power: 6V/500mA adaptor, or 4 x D Batteries

Power Consumption: 0.5 watts

Infrared Sensor: USA PerkinElmer

Infrared Area: Oval, 120 degrees, up to 115 ft. radius approximately 12,000 sq. ft.

Ultrasonic Repelling Coverage: 12,000 sq. ft. “Open Area”

EPA Est. No. 085464-CHN-001

# **CLEANRTH SUPER** **ADVANCED** Ultrasonic Bird Repeller

## **QUICK - GUIDE**

## *We care about your results!*

**Step 1** Remove your device and power adaptor from the box.

**Step 2** Open the back of the unit and insert the plug end into the 9V DC Input jack located inside the unit. Plug the adaptor into a standard US120V electrical outlet (that is protected from the rain). You can also power the TSBR620 by using four D Alkaline batteries (not included).

**Step 3** Choose a nearby spot to set your TSBR620 that directly faces the most open area around the Bird Problem. The TSBR620 needs to sense bird movement and body heat in order to activate.

**Step 4** Set all the Switches using our recommended settings shown below.

## Recommended Settings

Sensor  
OFF  CONT.

Strobe Light

Sensor  
OFF  CONT.

Sound/Ultrasound

Low  High

Sonic Frequency

Low  High

Sensitivity

OFF  ON

Test

OFF  ON

Power

**Strobe Light:** Set this to the middle - **Sensor** - option. The strobe light will only activate when the Infrared Sensor detects body heat; this is a better way to suddenly startle birds than letting the lights flash continuously.

**Sound/Ultrasound:** Set this to the middle - **Sensor** - option. The speakers will only activate when the Infrared Sensor detects body heat; this is a better way to suddenly startle birds than letting the lights flash continuously.

**Sonic Frequency:** Slide the switch from **Low to the middle**. You should not hear an audible beep, but you might hear the speakers click on and/or a high-pitched buzz. Allow 8 days at this frequency then refer to:

### Running the Bird Repelling Routine & What To Expect

**Sensitivity:** Slide the switch to **High** to set sensitivity strength at maximum.

**TEST: OFF**

This allows you to hear a representation of what the device is doing at an audible level. Please make sure that TEST Mode is set to OFF; *it is NOT REPELLING when Test is on.*

### Running the Bird Repelling Routine & What To Expect

- 1) Once set up & turned on, please allow 8 days worth of repelling in 1 spot.
- 2) Use the 8th day as a check point. Do you still see bird activity on this day? Has the issue diminished at all? If the problem has improved; great, please continue to use the device in its current settings.
- 3) If the bird problem still heavily exists, it's time to make a change. Please slide the Sonic Frequency Switch towards **LOW**. After making these changes, please allow another 8 days of repelling.
- 4) At this point you should be 16 Days in worth of repelling. Has the issue diminished? If not! Then it's time for us to help. Please Contact Us and we will move to what we like to call our **Stage II** worth of help: **Free of Charge**.

### Helpful Hints:

-The **idea** is to give the TSBR620 the best angle for **Detection** so it can **Activate** when a Bird intrudes into the area. You might find yourself having to make a few adjustments to get it in the perfect spot.

-Repelling birds is all about **Scaring**, **Startling**, and making the intruding birds **Uncomfortable**. Change in Repelling Power, Volume, or Angles can be Key for Tough Issues.

If your Problem still persists after the 16-20 day mark. Please Contact us as we will Move to a **Stage 2** worth of Help/Repelling If Ordered Online, it's "**BEST**" to Contact Us via the website you ordered from (e.g., Amazon, Walmart, Lowes, etc.) or E-mail: info@cleanrth.com or Phone: 480-255-5113
