

GLOW-IN-THE-DARK

FIRST AID KITS

Could you find
your First Aid
Kit in the dark?

The loss of illumination during an emergency can cause panic and confusion, especially if someone is injured and needs assistance.

The NEW **GLOW-IN-THE-DARK** First Aid Kits can help you to locate and identify your first aid equipment and protect your workforce in the event of a power failure.

GLOW IN THE DARK

FIRST AID KITS

The **GLOW-IN-THE-DARK** First Aid Kits and their contents are compliant with the latest British Standard BS85991: 2019, and they reflect the most up-to-date changes in workplace practice, making them demonstrably more 'fit for purpose' in today's environment. The one-handed safety clip keeps the cases tightly shut, creating an airtight, dustproof, and water-resistant environment for the sterile contents. The wall mounting bracket is included so the kit can be placed somewhere easily accessible and highly visible for low light emergencies.
