

NATIONWIDE HYGIENE

Think outside the box -
better for the workplace,
better for the planet

The new Aura3 box is the latest evolution of our flagship design that has been a firm favourite for years.

Now made with 100% recycled and recyclable plastic, Aura3 stands out from a distance, enabling quick identification in an emergency, especially in a busy workplace. This third-generation box has a striking design, with embossed and printed iconography to help with easy identification across all languages.

The single clip closure enables quicker access with one hand in an emergency. Essential features are retained, including an integral bracket for secure wall fixing, easy portability and, with the addition of a tamper seal tucked neatly under the handle, it can be visually monitored by Health and Safety managers in an instant.

Integral bracket

Single clip

Embossed cross

Easy identification

Tamper seal

Quicker access

BS8599-1:2019 WORKPLACE
