**FIRST AID MEASURES**

First Aid responders should use protective equipment in sections 5 and 8 if there is a potential for exposure to product. Have a product container or label with you when calling a poison control center or doctor.

**IF INHALED:** If inhaled, remove to fresh air. If breathing is difficult, get medical attention.

**IF ON SKIN OR CLOTHING:** Remove contaminated clothing. Rinse skin if needed with water.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**IF SWALLOWED:** Wash out mouth with water. Move exposed person to fresh air. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. Never give anything by mouth to an unconscious person.

**NOTE TO PHYSICIAN:** No specific antidote, treat symptomatically.

**PHYSICAL HAZARDS:** Can ignite at high temperatures.

**FLASHPOINT:** >300°F / >150°C

**EXTINGUISHING MEDIA:** SMALL FIRE: Use DRY chemical powder.  
LARGE FIRE: Use water spray, fog or foam.

**FIRE AND EXPLOSION HAZARD:** Can burn in fire. Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available.

**FIRE FIGHTING INSTRUCTIONS:** Evacuate area and fight fire upwind from a safe distance. Dike and collect water used to fight fire to prevent environmental damage due to run off. Foam or dry chemical fire extinguishing systems are preferred to prevent environmental damage from excessive water runoff. Minimize use of water to prevent environmental contamination.

**FIRE FIGHTING EQUIPMENT:** Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. PVC boots, gloves, safety helmet and protective clothing should be worn.

**SECTION****6****ACCIDENTAL RELEASE MEASURES**

**IN CASE OF SPILLS OR LEAKS:** Clean up spills immediately, observing precautions in Section 8 of this document. Isolate hazard area. Keep unnecessary and unprotected personnel from entering.

**SMALL SPILL:** Use appropriate tools to put the spilled solid in a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose of according to federal, state, local and regional authority requirements.

**LARGE SPILL:** Use a shovel to put the material into a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose of according to federal, state, local and regional authority requirements.

**ENVIRONMENTAL PRECAUTIONS:** This material should be prevented from contaminating soil or from entering sewage and drainage systems and bodies of water. Minimize use of water to prevent environmental contamination.
