

#### 4. Wings

A stepless and flexible fit allowing you to shut off spare space on the side.

#### 5. Height adjustable

Regardless of how high your car's luggage space is, you can adjust the unit for an exact fit. Telescopic pipes are available as accessories to enable the height of the gate to be raised up to 25 cms if required.

#### 8. Adjustable tubes

Yet another solution that enables a perfect fit no matter the make of car. The divider pipes are adjustable both in height and length.

#### 9. Ceiling height screen

For vehicles with more pronounced arched roofs. Perforated for maximum rear view visibility.

#### 6. Adjustable for angle

You'll get a perfect fit for your particular make of car, no matter the angle of your boot lid.

#### 7. Stable and steady side support

A vital part that stabilizes and secures the entire system.

#### 10. Covers the sides

Here as well, the pipes are adjustable for an exact fit for your particular car.

#### 11. Headrest brackets

Make for stable anchorage. Rubber sheathed for noiseless travel.

#### SAFETY ALL THE WAY

For us, safety always comes first, both for people and pets. In addition, our products are crash tested to the highest standards without compromising on the practical and convenient features they offer. Because we want you to enjoy each and every trip you make.

## Freedom

VarioSystem makes it easy for you to find the solution that is exactly right for your purposes. Whichever you choose, VarioSystem offers a variety of uses and functions, there to help you, your dog, and fellow passengers travel in the safest possible way.

# VarioSystem

BY MIMSAFE

## Smart and simple

Irrespective of which VarioSystem solution you choose, you'll never have to negatively impact your car during assembly. Above all, we want our customers to feel secure in having chosen VarioSystem, as well as experience the benefits of a smart system that can be customized to suit their individual lifestyles.

Moreover, we are gradually adding new accessories and features to our VarioSystem.

So don't forget to watch out for these!

### 1. Gas springs

Keep the doors open in windy conditions or on inclines, to allow your dog to safely hop in and out of the luggage compartment.

### 2. Built-in locking system

Fitted with a key lock. A smart solution to save you worrying about of a break-in.

### 3. One-hand opening

For ease of use. It also allows you to keep one hand free to safely help the dog into and out of the car.

### Single or double

Choose if you want to divide up the luggage compartment and create space for other baggage. Or you may want to fit the VarioSystem into the entire compartment to make space for two or more dogs. Should you need to keep the dogs separated, you just mount the VarioDivider. We are talking about flexibility in the true sense of the word here.

## VARIOBARRIER | ORIGINAL

Are you concerned that our VarioBarrier may not fit into your particular car? No need for that.

There are three sizes to choose from, and they all fit cars in the market with flat luggage compartment floors, all customizable. In most cases, you will also be able to use your VarioBarrier in your next car. Here again, we're talking real flexibility!

As you will be aware, we don't compromise with safety. Our VarioBarrier as well as all our products are tested according to crash standard ECE-R17/ISO 27955.

Art-no	Article	width		height	
		minimum	maximum	minimum	maximum
52014	VarioBarrier S	31.50	57.68	9.25	11.22
52016	VarioBarrier M	31.50	57.68	14.37	16.34
52026	VarioBarrier L	37.01	63.19	14.37	16.34

All measurements in **inches** | mm.

## VARIOBARRIER | HEADREST

Yet another product in our VarioSystem family offering easy assembly without impacting the car negatively. You attach it easily to the headrest sticks - Clear!

Can withstand loads comprising both a dog and luggage and prevent them from being thrown forward into the cabin in the event of a frontal collision.

Art-no	Article	width		height	
		minimum	maximum	minimum	maximum
52114	VarioBarrier headrest S	30.31	57.68	9.25	12.20
52116	VarioBarrier headrest M	34.25	61.61	14.37	17.32

All measurements in **inches** | mm.

## VARIOGATE

Here you have the opportunity to combine VarioGate with one of our two VarioBarrier options to create an enclosed space in the luggage compartment for dogs or items that you want to transport securely.

VarioGate allows you to set height, width and depth and, just like our VarioCage, the doors are equipped with gas spring and are lockable. Thanks to its flexibility, VarioGate fits most cars without thresholds in the boot. Leash hooks included.

Can be used in luggage compartments with thresholds not exceeding 7 cms in height.

Art-no	Article	Variant	width		height		depth	
			min	max	min	max	min	max
53153	VarioGate	single	21.06	28.35	21.85	37.80	30.71	59.06
53253	VarioGate	double	36.22	50.39	21.85	37.80	23.62	59.06
58305	Extension wing	left	-	3.15	-	-	-	-
58306	Extension wing	right	-	3.15	-	-	-	-

All measurements in **inches** | mm.

## VARIODIVIDER

With VarioDivider you'll get a divider that is both robust and adjustable, all designed to allow you to distribute the available space as required.

VarioDivider is an accessory for mounting into VarioGate and is side-loaded and pressure resistant. It crushes and absorbs the forces in both front and rear collisions, preventing injury to back-seat passengers.

VarioDivider is available in two sizes to fit as many car models as possible.

When buying our single gate, VarioGate single, you will also need a VarioDivider to create two separate secure spaces.

Art-no	Article	width	height		depth	
		exactly	min	max	min	max
53275	VarioDivider medium	27.95	15.75	37.80	30.71	39.37
53285	VarioDivider XL	27.95	15.75	37.80	41.34	59.06

All measurements in **inches** | mm.
