

## Slatted Jasper Morrison

A precise high stool design that uses materials sparingly and is light in both weight and appearance. The frame is brazed constructed from 12.7 mm CNC bent tubular steel and 5 mm thick rolled steel slats. The Slatted stool, which comes finished with a black powder-coated texture, is a beautifully balanced piece with a touch of the elemental. It was originally produced in 1986, reissued in 2015.

Made in Lancashire, UK.
