

## Terracotta Reiko Kaneko

The Terracotta range by Reiko Kaneko comprises a jug, tall pitcher, large flat platter, tumbler, wine cooler, biscuit barrel and large bowl. Finished with an opaque glaze, which makes the vessel watertight, a number of partial and full glaze options are available. Each design is hand-thrown and is therefore unique. Designer, Reiko Kaneko, has created an elegant modern range of vessels in a classic material. Tiny variations in form, the evidence of being hand-thrown, give these designs an idiosyncratic beauty all their own.

Handmade in Suffolk, England.
