CROWN BALL PEN

'**Crown Ball Pen**' is a writing instrument specialized company that has concentrated only on the writing instruments since it was founded on February 16th, **1965** and started to produce Ball Point Pen Tip.

Along with continuous research, development and investment, Crown has taken the initiative to develop and commercialize products in the van of the writing instrument industry.

Moreover, Crown holds competitive technologies related to writing instruments, concentrating on exports from early on and building the image of its brand name, Crown, in the international market, starting from the latter end of **1980s**.

Crown produced Ball Point Pen mainly during its early stage and expanded to Rolling Pen, Jell Pen and Marker Pen, etc later on.

In particular, our Jell Pen won recognition in the overseas market for its extraordinary quality.

Our company's foremost strength is our production of all the parts needed within the system of the company.

The merits of the point are that we can maintain the quality of the product easily and thoroughly, and guarantee the competitive price.

We produce the entire volume of TIP, which is the life of pen, within the company's system, and also produce INK based on the research of our research and development center.

Furthermore, we design and produce MOLD as well as INJECTED PEN PARTS.

Another merit of this system is that we can catch up the current trend by fast correspondence to the demand of consumers.

Our company research and develop continuously to cope with the rapidly changing writing instrument market, keep concentrating on development of the consumer favorable products by fast grasping the consumer's desire on the writing instruments, and persevere in our efforts to supply cheaper-but- better products by decreasing the prime cost as the reward of the consumers' love.
