PRODUCT DESCRIPTION

Exclusive to eSafety Supplies is our Internal Base Plated Removable Bollard which sits 900mm high off the ground and with a 316 marine grade stainless steel finish. The internal base plate bollard has been engineered for applications where a bollard with a large base can not be used due to possible trip hazards, tight spaces or locations you cant core drill the slab due to underground services.

Features:

- Simply fasten the internal base plate to the surface and screw the bollard onto the base plate.
- This bollard is perfect for those tight shopping aisles, food courts, shop fronts and many more
- Made from 316 Marine Grade Stainless Steel.
