PRODUCT DATA SHEET

Water Filled Barrier

SKU: WATERBARRIER

SPECIFICATIONS

Material	UV Stabilised Polyethylene
Height	900 mm
Width	500 mm
Effective Length	1900 mm
Overall Length	2000 mm
Weight (Empty)	18 kg
Weight (Full)	288 kg
Color	Orange
Joining System	Interlocking

PRODUCT DESCRIPTION

Introducing our premium Water Filled Barrier System, meticulously engineered for unparalleled durability and safety. Crafted from resilient polyethylene plastic, these barriers boast superior strength, eliminating concerns of cracking or bowing. With a weight capacity of up to 288 kg when filled, they provide steadfast protection in construction zones, walkways, and work areas.

Their innovative design facilitates easy installation and relocation, featuring convenient forklift grooves and interlocking units for seamless integration. Enhanced with reflective tape for heightened visibility, these barriers ensure optimal safety day or night. Elevate your site's security with our comprehensive pedestrian safety solutions.
