PRODUCT DESCRIPTION

eSafety Supplies Industrial fixed round, surface mount bollards are essential for your asset protection and traffic control needs. These striking bollards are perfect for restricting vehicle access whilst allowing pedestrians to pass through. Our security bollards acts as a strong barrier to protect your property against vehicles.

Ideal for areas with a mix of foot traffic and vehicle access, our sturdy and functional bollards will surely bring extra assurance and safety for loading docks, carparks, driveways and more.

The surface mount bollards have fully welded base plates and are suitable for installation onto any concrete surface. Suitable for installation in asphalt or any soft surface where a concrete footing will be necessary.

This bollard is secured with 4 fixings which is available below.

Features:

- Sturdy 140mm diameter for enhanced visibility and impact resistance
- Surface mount installation for easy setup
- Galvanised finish for corrosion resistance and durability
- Suitable for both permanent and temporary applications
- Ideal for high-traffic areas and urban landscapes
