

UNLEASHED SAFETY BARRIER – MULTIPLE SIZES

Our Unleashed Barrier System exclusive to eSafety Supplies has been designed, prototyped & manufactured within Australia protecting Australian Jobs. During the design phase we have always focused on the safety of pedestrians as this is the upmost importance particularly in a busy warehouse environment. The Unleashed Pedestrian Barrier system distinguishes a clear barrier for pedestrian walkways for a safe workplace. Its robust construction and economical design allows for quick and easy installation with any components easily replaced if damaged unlike other barriers on the market.
