

ELITE SUPER BUBBLE POOL BLANKET PROVEN TO OUTPERFORM ALL SOLAR TYPE ROUND BUBBLE POOL BLANKETS ON THE WORLD MARKET
HERE'S WHAT MAKES ELITE THE WORLD'S BEST ROUND BUBBLE POOL BLANKET

1. There are a number of "run of the mill" round bubble type blankets on the market. Most of them perform the same as each other i.e. heat the same/as they are the same pale colours.
2. These "run of the mill" blankets keep the heat in your pool the same, as they all have similar small bubble size, i.e. the same "ok" insulating properties and they will last about the same as each other i.e., as they are the same thickness i.e., 500, 400, 300 micron etc.
3. Elite Super Bubble Ultra Heat Deep Colour Blankets are proven to heat better than standard pool blankets i.e., darker colours heat better than lighter colours giving you a warmer pool and a longer swimming season*
4. Elite's Super Bubble Blanket is the best insulating round bubble blanket available due to its superb insulating larger higher bubble size. This gives you a longer swimming season, plus, if your pool is heated you get great energy savings.
5. Elite Super Bubble Salt Safe/Chlorine Safe 550 Micron Blanket will out-last other round bubble blankets due to its thickness and bubble design.
6. * **PROVEN RESULTS** (Independent scale tank tests and comparative guarded hot plate tests to Australian Standard AS4859-1.)

What Makes Elite Pool Covers The Best

Large Bubbles = better insulation than other small bubble blankets,*so your pool stays warmer overnight.

Ultra Heat®, deep colours. Warms your pool better than pale blue blankets,*so you will swim sooner, for longer.

Broad base, for better wind resistance and automatic cleaner operation plus the best Solar Absorbency.

Thicker than standard blankets a Saltsafe Chlorsafe(R) base = longer life, better investment.

Formed round base for a stronger and longer lasting blanket - **NO WEAK POINTS**
