

10 Crazy Facts about Your Brain that will Blow your Mind (and Help you Homeschool!) - by Suzanne Gose

Kid Name =>					
Weather Preference (cold and crisp/ warm and cozy? Fans?)					
Temperature - blankets, tank tops, barely clothed, all bundled up?					
Lighting - Lamps, windows, shadows, brightness, warm vs. cool light					
Color - Yellow = Memory Red = Hunger Green = Learning					
Mood Affects Cognitions (which subject is hardest and creates a negative modo?)					
How can I change it for them? Distractions, food, redirections					
What pains my child - clothing, hunger, chair type, audio, headaches, allergies					
When is their most energetic time					
Audio Levels and preferences (Back ground music = good / bad?)					
Relationships - who creates peace together, who creates strife/ nervousness/fear					

Main Idea - All ten topics OPEN or CLOSE the gates (faucets, or spigots) to learning/ long term memory and cognition at almost any age. Synapses fire based on so *much* that has nothing to do with the lesson or method.
