Dripless Series

Dripless Aluminium Pressure Cooker

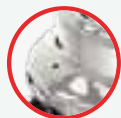

Smart Spillage Control

Our innovative dripless design prevents the messy, liquid from overflowing the cooker and helps keep your kitchen spotlessly clean.

Sturdy & Durable Handles

This pressure cooker is designed to make your cooking experience better with a cool and comfortable grip.

Controlled Gasket Release System

When there is an excess build-up of pressure within the cooker, the gasket bulges out through the slit from the side in the lid of the pressure cooker.

Metallic Safety Plug

The metallic safety plug melts to let out steam when the temperature or pressure rises beyond the safe level due to insufficient water or when food particles clog the vent tube.

The Natural Breeze that Works Like Magic!

Ceiling Fan

Sit back and relax while we soothe you with our premium range of powerful and aerodynamically designed ceiling fans. These elegant and stylish fans are equipped with a unique blade angle providing high speed and the best air delivery that outsmarts any other ceiling fans.

Seamless Cooling Amazing Savings!

HIGH SPEED **BLDC** CEILING FAN

100%
COPPER MOTOR
INTEGRATED
MAGNETIC DESIGN

Brushless DC motors have higher energy efficiency due to electronic commutation system resulting less power consumption for same air delivery compared to conventional ceiling fan.

CSI technology enables constant speed even at low voltage upto 100V.

**Saves up to
₹1670 every year***

	Conventional Fan	Impex BLDC Fan
