

FRANKING MACHINE

Fx Series 5

Providing a wide range of applications and a small footprint, the Fx Series 5 is ideal for medium letter volumes. Efficient, intuitive and sophisticated with a 3kg scale.

FRAMA Fx Series 5

PERFORMANCE AND COMFORT

Fx Series 5

The flexible solution for modern and professional-looking business mail.

Highly efficient, flexible and easy to operate

Extremely versatile, the Frama Fx Series 5 franking machine provides smooth processing of your outgoing mail. Nine speed-dial keys offer comprehensive flexibility. Relevant details can be called up at the touch of a button, enabling complete control over postage costs and avoiding incorrect franking.

The Fx Series 5 has a large feed table that allows you to easily process a wide variety of envelopes. Key symbols provide simple access to frequently used functions. Optionally, you can expand your franking machine with external weighing platforms with weight ranges up to 35kg. Thanks to a high-speed LAN connection, the Fx Series 5 is always automatically equipped with the latest tariffs and updates.

Frama pursues the goal of developing solutions that combine efficiency and high quality, whilst having minimal environmental impact. All our products and services meet international quality standards.

Product highlights Fx Series 5

All-In-One feed table

Thanks to the handy feed table with automatic letter sealer, different envelope sizes are quickly processed, sealed and franked. No more cumbersome closing of gummed envelopes!

Flexible weighing

Adaptable to individual requirements. Adding a 10 kg or 35kg scale provides the facility to send bulky packages and parcels easily. With Smart-Start technology, your machine is up and running faster saving you valuable time.

OLS Software Updates

The Frama OLS data centre automatically updates, ensuring that your Fx Series 5 is always up to date.

ABOUT FRAMA & SERVICE FEATURES

At Frama It is our mission to help businesses increase efficiencies and productivity rates as well as provide information mobility throughout an organisation.

Frama is noted for its consultative approach and ability to meet requirements by working with our customers to find the correct solutions and products to meet the needs and wants of your business. This is what makes Frama the most trusted partner for business in this sector.

Frama has the ability to work with businesses and organisations of all sizes and has the flexibility and speed to meet requirements from multi-site requirements, bespoke solutions and secure and efficient packages for home or hybrid workers.

For more than 50 years, Frama has specialised in the development and manufacture of mail processing and secure data management systems. Through the decades, we have produced multiple innovations within the communications world, making us the key solution provider for all aspects of local and international written business communication when efficiency, integrity, and innovation is required.

In today's world where the increase in cyber-crime and compliance regulations are a priority, Frama continues to make cutting-edge innovations in the communications arena.

These include digitising priority business processes such as HR, marketing, sales and finance. It includes ensuring email communication is secure using a unique and easy to use encryption service or the introduction of e-signature software; and implementing a managed print services (MPS) strategy.

Security and automation for your business are, and always have been, Frama's mantra..

Our promise to you:

- Consultative approach - ensuring you are provided with the best solution for your business needs via one of our technology specialists
- Customer service - Each new member of staff is inducted through the Frama CareS programme which highlights our commitment to customer service
- Aftersales - Frama recognises that as well as providing high quality products and tailor made solutions the quality of the after sales service is a major factor when deciding on which supplier to partner with
- Service with a familiar voice - Frama provides a UK based service centre trained to the highest standards of customer care via the Frama CareS customer training modules that all staff attend at regular intervals
- Latest technology - high quality products backed by unrivalled after sales service and support. Providing an end-to-end solution for all sizes of business
- Certification - Frama is certified for IT security as per ISO 27001 and FIPS 140-2 Level 3, the highest security requirement for Cryptographic Modules
