**FOR IMMEDIATE RELEASE:**  
**Joe Exotic Recruiting for Libertarian party**

Hello to all of you from the depths of hell known as federal prison where rats, expired food and mold are common things. Just wanted to let you all know that I'm barely surviving but I do have a few very important updates.

The good news is I am still holding out hope for a pardon or clemency since President Trump let Todd Chrisley and George Santos go home.

The bad news is I recently lost my appeal in the 10th district circuit court.

So now, my lawyer Roger Roots is taking my appeal to the United States Supreme Court since all of the conmen in Tiger King came forward and have admitted to perjury because my case is full of due process violations:

But the biggest best news is that I have learned the Libertarian Party was the driving force of who actually helped secure the freedom of Ross Ulbricht and Roger Ver.

*(Ross was a libertarian who had unjustly received two life sentences plus 40 years in prison. Roger Ver was wrongfully accused of tax evasion. Both have been relieved of harsh and cruel punishments and can now go on to do good things in the world.)*

I have been speaking a lot with the Libertarian party's former chair Angela McArdle about all of her efforts to free Ross and Roger. I now actually have a renewed sense of hope that I might make it out of prison alive.

**"The more I learn about Joe's case, the more it seems like the justice system worked with radical animal rights interest groups to wrongfully lock Joe up." -Angela McArdle**

The Libertarian Party might currently not win the most elections, but they definitely have a proven strategy for getting their people out of prison. That being said, Angela has inspired me and I am now asking all of my supporters to organize into a voting block and demand my release.

This is my new call to action for all of my fans and everyone around the world that supports my freedom and believes that innocent Americans do not belong in prison: Go join the Libertarian Party!

Have developed a link with instructions so all of my supporters can easily sign up and attend their state Libertarian Party convention:

<https://lpmc.us/sign-up>

I am asking all Americans to attend their state Libertarian conventions and to get involved. Wear "Free Joe Exotic" shirts there and chant and push the Libertarian party to make my release a part of their midterm strategy. There is power in numbers and I believe my fans and Libertarians can all unite and that Trump will listen and do the right thing and release me to go home.

Thank you to everyone continuing to support my freedom!
