For Immediate Release:

Joe Exotic Offers Satisfaction from Behind Bars

Joe Exotic is most likely the most famous inmate of all times and is still receiving thousands of letters a week in support of his innocence and freedom.

Interestingly, most of the mail is from people around the world who desire a more private, personal and intimate relationship with Joe since falling in love with the cowboy that captured everyone's heart.

However, the prison doesn't offer conjugal visits, so the Tiger King has not been able to please his fans.

So, the Tiger King came up with a creative way to satisfy his fans and those who yearn more for him.

Effective immediately, Joe Exotic is proud to announce the Joe Exotic AI clone is now available 24/7. The Joe Exotic clone even includes full nudes for everyone's wildest adult fantasies and happy endings.

"I'm thrilled to have the opportunity to finally offer my fans the satisfaction and attention they deserve."

Whether you like the little one or the big one, the Joe Exotic AI clone is going to please you.

From basic companionship to full on erotica, the Joe Exotic AI clone is the first of its kind amongst global celebrities and advanced technology.

Pioneering the future from behind federal prison bars, Joe Exotic continues to capture the world as his audience.

Asked if Joe had any other plans he hinted at VR possibilities in the future but said “that’s for me to know and you to find out LOL.”
