

TB-EPS

EPS Portable Toilet

EPS PORTABLE TOILET SUITABLE FOR TEMPORARY LAVATORY FACILITIES

Perfect for use as a temporary sanitation facility that can easily be moved from one location to another, Our Portable Toilets are designed to provide a convenient and hygienic short term solution for waste disposal in areas where permanent restroom facilities are not available.

Highly Practical ○

Can be used for outdoor events, construction sites, camping and other outdoor activities, temporary work sites, or even for disaster relief assistance.

Easily Relocatable ○

The TB-EPS has a solid and durable structure, that allows it to be easily relocated and delivered with ease.

Complete Sanitation Solution ○

Included in the TB-EPS is, a toilet, a washing basin, shower head, ventilation, wastewater and hot water system inlets.
