Why Use the *UVDI-GO*[™]

CDC: Reduce Risk from Surfaces

“Contamination of surfaces, including high-touch surfaces in the room (e.g., bedrails, over-bed tables, and call-buttons) and reusable patient care equipment that is moved between rooms, can lead to: (1) transmission to the next patient who occupies the room or uses the same equipment, or (2) contamination of the hands or clothing of healthcare personnel with transmission to other patients. Therefore, cleaning and disinfection of environmental surfaces is fundamental...”¹

UVDI-GO[™] UV LED Surface Sanitizer. Rapid, On-the-Go Disinfection.

Independently proven, fast efficacy

- Efficacy against high-risk microorganisms in independent laboratory testing

Microorganism	% Inactivation	Time	Distance
MRSA	99.9999%	10 seconds	4"
CRE	99.999%	10 seconds	4"
<i>Candida auris</i>	99.99%	20 seconds	4"
<i>C. difficile spores</i>	99.99%	20 seconds	4"

Portable and lightweight

- Cordless, 2-hour battery run time per charge and weighs only 1 lb
