

# Tell Us About ...

Our “Tell us about...” game is a fun way for the entire class to get to know each other.

How to play:

1. Have all of your students fill out the My Friends and I book.
2. Once all of your students have filled out the My Friends and I book, write every student's name on a separate piece of paper.
3. Put all names in a hat and have each student draw a name.
4. Let the students take the My Friends and I book home with them, one by one, and have them fill in the blanks on the “Tell us about...” template below, using the information their assigned classmate has entered into the My Friends and I book.
5. Have them read their “Tell us about...” to the class.
