

DrawerBOX Assembly Guide

KITCH FRONT

Inspect the Product

A friendly reminder to unwrap and inspect your Kitch products before assembly and installation. You may find a blemish, but no sweat! Our KitchBOX parts are universal, so just rotate the blemish toward the back of your cabinet.

If a remake is required, please take photos of any damages along with the label on the piece and email them to hello@mykitch.ca. We'll review and advise what the next steps will be for you. You have 15 DAYS from receiving your products to report these to us.

Tools Required

- Cordless drill with adjustable torque settings.
- Kitch Assembly Tool.
 - Recommended drill settings: low speed, with torque setting at 50% of capacity, maximum torque of 2.5Nm (1.8ft. lbs).
- #2 Robertson (square drive) screwdriver or screwdriver bit.
- Hardware needed:

Attach the Drawer Bottom (KPDBO) to a Drawer Side (KPDSD) using the Kitch Assembly Tool.

Hardware needed:

Step 2

Attach the Drawer Back (KPDBA) to the Drawer Side (KPDSD), then, tighten the bottom fixing to the drawer back.

Step 3

Attach the other Drawer Side (KPDSD) to the Drawer Back (KPDBA) and Drawer Bottom (KPDBO).

Kitch₁₀

Step 4

Insert the **bumpers** to the Drawer Front (KPDF).

If you're assembling an Inner DrawerBOX, skip to the next step.

Hardware needed:

6

Kitch₁₀

Step 5

Attach Drawer Sides (KPDSD) to the Drawer Front (KPDF).

If you are assembling an Inner DrawerBOX, repeat this step with the Inner Front (KPIDF).

Step 6

Tighten the Bottom (KPDBO) to the Drawer Front (KPDF). If you are assembling an Inner DrawerBOX, repeat this step with the Inner Front (KPIDF).

Using a #2 Roberston (square driver) screwdriver or driver bit, attach the locking devices to the Drawer Bottom (KPDBO) with the screws provided.

Helpful hint: the locking devices have a left and right side. They provide up-and-down adjustment once the cabinet is installed to even out gaps.

Step 7

Your Kitch DrawerBOX is now ready to be installed.
