

Who We Are

Welcome to step zero of your self-care routine! Weddell Water is a water filtration company that specializes in NSF certified, clinically tested, and dermatologist approved filters.

Weddell Duo Shower Filter

Designed in California, Made in Korea

Based in Orange County, the Weddell Duo was designed in California by a team of highly experienced PhD engineers, researchers, and self-care enthusiasts, and is built with proprietary, patent-pending technology in Korea.

NSF Certified

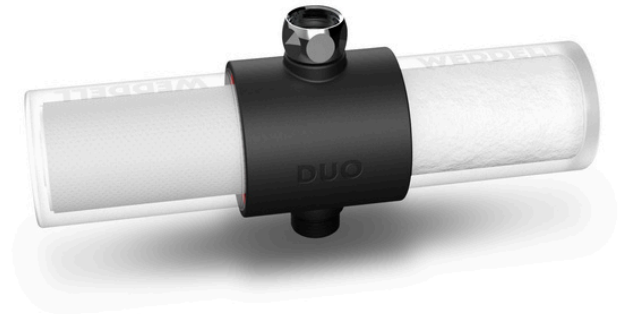

Weddell Duo is the #1 NSF certified shower filter in performance*. With a steady flow rate of 2.8 GPM, Weddell Duo has a cost-effective life cycle of 8,000 gallons.

Researched, Tested, and Certified

Unlike unverified performance claims by other shower filters, Weddell Duo is the only shower filter on the market to be NSF certified, verified to reduce PFAS, and clinically tested to improve skin hydration and scalp.

Verified Performance

Chlorine Reduction
Certified by NSF

Particulate Reduction
Verified by IAPMO Lab

PFAS Reduction
Verified by IAPMO Lab

*Based on flow rates and capacity of 2024 wall mount shower filters.
