

PRX PROFESSIONAL™

WITH (RF) MICRONEEDLING OR ABLATIVE LASERS

METHOD OF USE

1. Perform a treatment of PRX one week prior to the application of RF Microneedling or ablative laser.
2. One week post PRX treatment, perform RF Microneedling or ablative laser.
3. Once the epidermis is fully restored, the use of home care products can be resumed.
4. 4 weeks post RF Microneedling or ablative laser, perform an additional PRX treatment and resume series if needed.

PRX PROFESSIONAL™

WITH NON-ABLATIVE FRACTIONAL LASER

METHOD OF USE

Not to be used together in the same treatment. Perform a non-ablative laser procedure 1 week prior or 1 week post PRX treatment.
