Instruction manual

MODEL		clair-TD1866		
Power supply	Input	AC 100~240V / 50/60Hz		
	Output	DC 12V / 1.0A		
Performance and power consumption	Level	Low mode	Normal mode	High mode
	Power consumption	2.64W	3.96W	5.28W
Recommended use area		Individual and office spaces		
Size		236mmx257.2mmx311.7mm		
Weight		2.2kg		

ATNS GROUP, Inc.

clair is a representative brand of purifier
developed and produced by ATNS GROUP, Inc. in Korea.

clair

See how much clair cares for its customers!

Innovative technology through a paradigm shift - the e2f filter

Nuisance static electricity is born again as an innovative filter resulting in a paradigm shift. The Clair e2f filter can collect ultrafine particles that escape existing filters and enter our lungs. Now try the e2f filter!

Removal of allergens and other substances that cause sick house syndrome

Clair removes harmful materials such as CO, exhaust gases (NOx, SOx), formaldehyde and toluene (VOCs), so it is great for use at home with respiratory patients, atopic patients, pregnant women and infants.

Safely purified air with no hazardous secondary substances

Air purifiers based on electric collectors or aromatic mixing generate hazardous secondary substances, such as ozone and carbon, which cause headaches, dizziness, drowsiness, asthma and atopy. The Clair air purifier is free of hazardous secondary substances.

Viruses and bacteria removal

It maintains a pleasant indoor environment by removing viruses, mold, fungi and bacteria.

Low maintenance costs

Because the cost for continuous use is only about ₩200 a month, it has negligible impact on the electricity bill. The e2f filter can be used for over a year, which makes maintenance easier and reduces filter costs.

Convenience

It is designed for convenient, one button operation, and the filter can be separated, replaced and cleaned by users themselves.

Attractive design

A simple and premium design coordinates with bedrooms and living rooms. It can be used in individual spaces and office environments.

Made in Korea

All models are made in Korea to ensure customer reliability. A/S (after service) is available through the joint medium and small enterprise AS centers operated by the government.
