

Soap Performance Results: Cold Process Method

Performance testing was done by the same maker, Diane Seimetz Duncan of A Joy Forever Bath + Body, using a plant-based formula at room temperature. The minimum recommended fragrance oil percentage (IFRA) was used in each batch. Please keep in mind that the testing process is ongoing, and information will be updated here as it becomes available.

This information is intended to be used as a guide and results may vary based on individual formulas and methods.

Fragrance	Max FO Percentage	Scent Retention	Notes	Final Color
