Spring  
Copenhagen

# Inspire to better everyday living

Spring Copenhagen is a Danish design company with roots in the Scandinavian design tradition. Our name, Spring, refers to the season where everything grows, but also to feelings of rejuvenation, renewal, and the celebration of ideas coming to life.

Passion is at the heart of our company. Continuously moving forward, innovating, and improving drives us to create well-designed interior products that can grow into new classics, age with grace, and last for generations to come.

We believe in great stories, quality, and craftsmanship as the central components in our building blocks to meaningful, useful, and timeless design. Design that is priced so as many people as possible can afford it and design that supports our simple but clear promise: Inspire to better everyday living.

We aim to inspire you and help you create beautiful surroundings, whether it's in your home, at office spaces, restaurants, or hotels: a comfortable home of togetherness, a place to unwind; creative and productive office spaces, and inspiring, cosy and inviting environments at restaurants and hotels.

And what we do, we do well.

Our portfolio of accessories, design objects, lighting and furniture spans from the 1930s to present day, crafted by renowned, forgotten, unknown and up-and-coming designers.

Welcome to Spring.

Peter Sørensen & Claus Nielsen, founders

## Wooden figures

At Spring Copenhagen, we're passionate about wood. This fantastic material adds a beautiful touch of nature to your home, and if you take good care of it, this material will last for many years.

Our wooden figures are not just pretty shapes. Through each of their individual and unique expressions, they help you express who you are.

This kind of expressive décor helps you make a personal home that supports you in your values and in what's important in your life.

Chresten Sommer is behind several of Spring Copenhagen's popular wooden figures. Everything he creates appeals to all genders and all ages. His designs follow several rules: They have to be simple, accentuate the aesthetics of wood, and combine nature with sweet expressions - and of course always be hand-turned.

# Living & dining
