

117 x 96

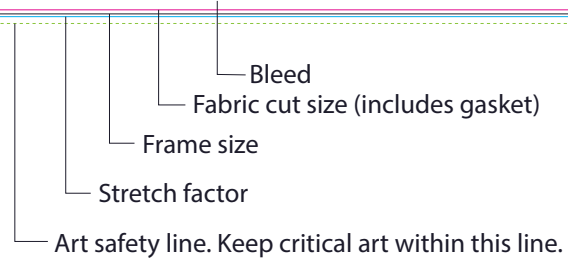

Front 1

117 x 96

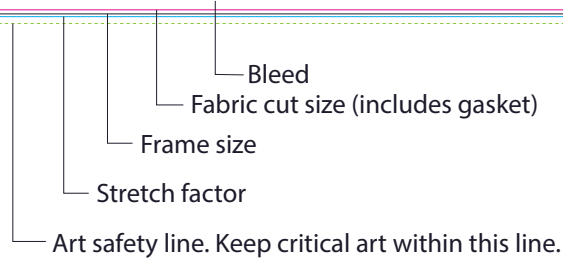

Back 1

If the back is left blank
we will consider it an unprinted blackout

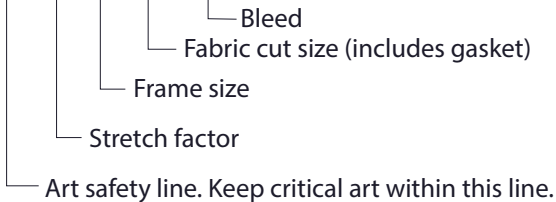

117 x 96

Front 2

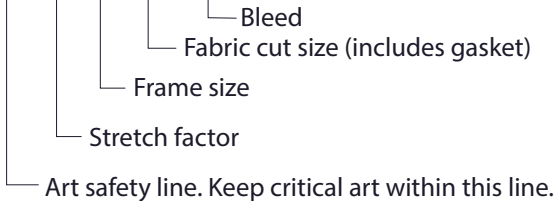

117 x 96
Back 2

If the back is left blank
we will consider it an unprinted blackout

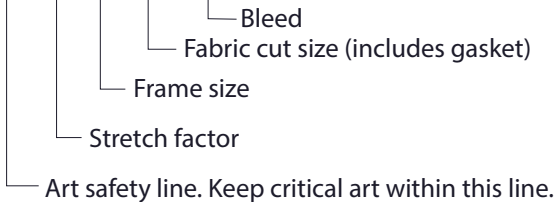

- 
- A diagram of a rectangular frame with several nested lines. From the outermost to the innermost, the lines are: a solid magenta line, a dashed green line, a solid black line, and a solid black line. Labels with leader lines point to these lines: 'Bleed' points to the space between the outer magenta line and the first dashed green line; 'Fabric cut size (includes gasket)' points to the space between the first and second dashed green lines; 'Frame size' points to the space between the second dashed green line and the third solid black line; 'Stretch factor' points to the space between the third solid black line and the innermost solid black line; and 'Art safety line. Keep critical art within this line.' points to the innermost solid black line.
- Bleed
 - Fabric cut size (includes gasket)
 - Frame size
 - Stretch factor
 - Art safety line. Keep critical art within this line.

Counter 1
(39.37x39.37)

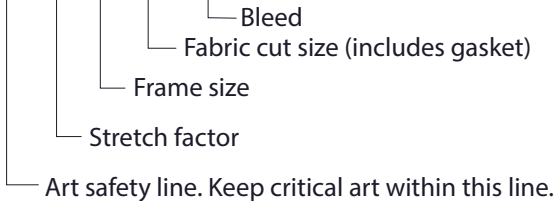

- 
- The diagram shows a rectangular frame with several concentric lines. From the outermost to the innermost, the lines represent: Bleed, Fabric cut size (includes gasket), Frame size, Stretch factor, and Art safety line. Each line is labeled with a leader line pointing to it.
- Bleed
 - Fabric cut size (includes gasket)
 - Frame size
 - Stretch factor
 - Art safety line. Keep critical art within this line.

Counter back 1 (39.37x39.37)

If the back is left blank
we will consider it an unprinted blackout

- 
- The diagram shows a rectangular frame with several nested borders. From the outermost to the innermost, the borders are: a solid magenta line, a dashed green line, a solid black line, and a solid white area. Labels with leader lines point to these borders:
- Bleed (points to the solid black line)
 - Fabric cut size (includes gasket) (points to the dashed green line)
 - Frame size (points to the solid magenta line)
 - Stretch factor (points to the solid white area)
 - Art safety line. Keep critical art within this line. (points to the dashed green line)
- Art safety line. Keep critical art within this line.

Counter 2
(39.37x39.37)

- 
- Diagram illustrating the components of a print layout:
- Bleed
 - Fabric cut size (includes gasket)
 - Frame size
 - Stretch factor
 - Art safety line. Keep critical art within this line.
