

## DS3-M

### The most powerful Dual Microinverter

- One microinverter connects to two modules
- Max output power reaching 799VA
- Two input channels with independent MPPT
- Reactive Power Control
- Maximum reliability, IP67
- Encrypted ZigBee Communication
- Safety protection relay integrated

## PRODUCT FEATURES

APsystems 3<sup>rd</sup> generation of dual microinverters are reaching unprecedented power outputs of 799VA to adapt to today's larger power module. With 2 independent MPPT, encrypted ZigBee signals, the DS3-M benefit from an entirely new architecture and are fully backwards compatible with the QS1 and YC600 microinverters.

The innovative and compact design make the product lighter while maximizing power production. The components are encapsulated with silicone to reduce stress on the electronics, facilitate thermal dissipation, enhance waterproof properties and ensure maximum reliability of the system via rigorous testing methods including accelerated life testing. A 24/7 energy access through apps or web based portal facilitate remote diagnosis and maintenance.

The new DS3 series is interactive with power grids through a feature referred to as RPC (Reactive Power Control) to better manage photovoltaic power spikes in the grid. With a performance and an efficiency of 97.3%, a unique integration with 20% less components, APsystems DS3-M is a game changer to residential and commercial PV.

<sup>(1)</sup> Nominal voltage/frequency range can be extended beyond nominal if required by the utility.

<sup>(2)</sup> Limits may vary. Refer to local requirements to define the number of microinverters per branch in your area.  
<sup>(3)</sup> The inverter may enter to power de-grade mode under poor ventilation and heat dissipation installation environment.

<sup>(4)</sup> Recommend no more than 80 inverters register to one ECU for stable communication.

<sup>(5)</sup> To be eligible for the warranty, APsystems microinverters need to be monitored via the EMA portal. Please refer to our warranty T&Cs available on [emea.APsystems.com](http://emea.APsystems.com).
