Auto float operation	Yes	
Particle size	18mm (soft & in water)	
Outlet size	1¼" / 2" BSP (M)	
Max. head	5m	8m
Max. flow	180 lpm	230 lpm

APPLICATIONS

The AZURE range of submersible sump pumps are suitable for pumping small soft solids (up to 18mm max.) in fluid suspension.

They are extremely quiet in operation which makes them ideal for applications within residential areas for wastewater sumps, waterfalls and general drainage.

HYDRAULIC PERFORMANCE
