Fertiliser for Life

# ECO-PRIME<sup>®</sup> EMERALD MINI PRILL

**Rock mineral fertiliser for thick, green turf**

**KEY BENEFITS:**

- Discrete 1-2mm Prill
- Sustained Release
- Low Leaching
- Biologically Activated

Eco-Prime Emerald<sup>®</sup> Mini Prill is a complete rock-mineral NPK turf fertiliser designed to enhance the appearance, consistency and playability of premium sports turf surfaces.

Eco-Prime Emerald<sup>®</sup> Mini Prill is designed to discretely optimise premium turf areas by selectively balancing nutrition to promote strong root growth and improved leaf strength – leading to hard wearing and tightly knitted playing surfaces.

Our unique combination of natural, mineral-based NPK and trace elements is further enhanced through the addition of beneficial microbes that encourage and stimulate soil / plant interactions.

For best results, use in conjunction with Eco Growth's Eco-Wet<sup>®</sup>.
