RING SIZE MEASURER

Measure an existing ring

This guide is to be used with an existing ring to find your ring size. For greatest accuracy use a ring with a similar width band and style to the one that you want to purchase.

Printer settings

1) Print Paper Size. Print out at 100% or set Page Scaling to "None" in your print dialog settings. Do NOT select "Scale to fit page" or "Shrink to fit page" option. (Keyboard shortcut to open the Print dialog box, press CTRL + P)

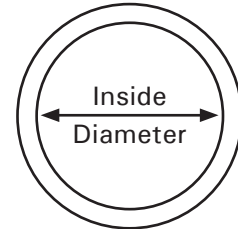

2) Measure the line below. It must be exactly 5 cm long.

How to measure your ring

1) Select an existing ring that fits your intended finger.

2) Place the ring over the circles below, matching the inside edge of the ring to the circle nearest in size. This measurement refers to the inside diameter of the ring.

3) Your ring size is the letter that fits best within the circle. If the ring falls between two sizes, we recommend you opt for the larger size.
