# Matiatia Motorised Wall Mounted Louvre Roof Aluminium Pergola

SIZE: 5X4   6X4   7X4   8X3.6

MANUAL

<2/23>

INSTALLATION NOTES

Before you start to install products ,please read below notes:

1. This is a general versioan manual .make sure tht you review the design   when placing an order and read this manual several times before you start to assemble pergola ,this installation steps can be referred to in this manual ,However ,other specific details such as motor position ,drainage direction ect. should be accord to the drawing of the order placed

2. Check the package list and confirm all items on the list ! Do not throw away any package until the pergola is installed successfully

3. Minimum 3 people are required during the installation

4. It needs 2 people to lift the product parts from the package ,please put the products very gentle , it is better to cover a carpet or hard paper box on the flooring to protect it from scratching

5. You should better to screw the pergola on a flat concrete floor or do pre-embedded into the floor when its height up to 2800mm.

6. You should remove the film coated on the products entirely during the installation ,because it is difficult to remove them after explosion under hot temperature

7. Please do not DIY our product and take use of the other alternative accessories when you change the original design ,which will void your warranty

8. We hold no responsibility for any damage caused due to human factor , especially incorrect assembly

9. During the installation process, if you encounter any uncertainties, please refer to the installation instructions on the product page of the website.

Screw the gutter with post but keep it loosen

<8/23>
STEP 3:Adjust the pergola position and fix the posts on the floor

3.1 Adjust the position .measure the diagonal lines and ensure the diagnal are equal.

3.2 It needs two workers to install the midlle gutter connect accessory . ne man push gutters to ensure min gap the other man screw it .don't forget to do silicone sealant when installationfinished

3.3 Install the L shape strengthing accessory

⑩ ⑱ ⑯

⑤ ⑰

90° 90° 90° 90° 90° 90° 90° 90° 90° 90° 90° 90° 90°
⚠ Tips:
1. Ensure the post in correct position , and stand 90 degree with floor.
2. Before you fasten the screws ,you should double check the pergola position .

⑮

3.4 Put the connector at four corners of gutter
3.5 Adjust the position measure the diagonal lines and ensure the diagnal are equal.
3.6 Mark the drill holes on the ground

3.7 Drill holes

⑥
3.8 Stuff the expanion bolt into concrete
3.9 Fasten the base plate on the floor
3.10 Fasten the base plate on the floor

3.11 Finished

㉖

㉕
3.12 Fix the 2 bay gutter connection blade pivot holder

Note:
If you find the holder at connection was installed in advance , then ignore this step .because sometime the roller has risk to broken .So we need to pack it seperately .

<9/23>

STEP 4 :Settle the blades

4.1 Take out the blade without driven cover
    from the package , there are 2 pieces

C-1

C-1
4.2 Screw the driven blade cover with driven blade

C-1

7
8.2 Install the L shape post covers

8.3 Install the middle post post covers

COMPLETE

<14/23>

STEP 9 : Check the pergola function

    9.1、the PCCB is essential during installation

    9.2、check the motor function

    9.3、check the remote function

    9.3、check the louver movement and noise
    9.4、check the led light function

   9.5、check the other device function

<15/23>

HOW TO USE TUYA APP

STEP1 :Open tuya app

1. Prepare a public wifi for the pergola

2. Open the phone bluetooth and TUYA app
⚠️Tip:
it needs 2.4GHz wifi

1、Open tuya app
and click add device

2. Search door window
(WIFI) in the catagory

3. input the wifi
password

4. start to link

5、press and hole the button until the blue indicate light flash

6. click confirm

7, select quick flash

8、wait for link

9. sucess

10. select pergola to control it
11. operation panel

<16/23>

How to authorize account to family members

一、TUYA APP

When you connect to tuya app successfully ,you can share the account to your family members
TIPS：
1the owner's phone (A) connect to pergola , he can operate the pergola by his phone A,
2.the other family members also download TUYA app and singn in

1. Create a family group in the phone A

1、creat a family group

2、click my family

3、name the faily group

4、click into the goup and link to pergola as before

5、share to the other family members
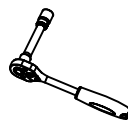

6、click into family group

7. join this family goup

8. input the invite code

9. confirm and successly join

10. you can try to operate the pergola on the phone

<17/23>

WALL-MOUNTED MANUAL
Hardware list

27	expansion plug(M14*75)	
28	wood screw (M10*100)	
29	30mm cap	
	17mm wrench	

<18/23>

STEP 1:Install the wall-mounted gutter first

B-3

B-2
2.1 Take use of electric spirit level
   to mark the gutter position
2.2 Mark the holes position through the
   pre-drill holes on the gutter

B-3

B-2

27

30

28
2.3 Drill φ14 mm holes
   on the wall

2.4 Stuff the expansion
   plug into the holes
2.5 Use wrench to screw
   the gutter on the wall

2.6 Stuff the cap

⚠Tip:
check the gutter position
before you fasten the screw

<19/23>

STEP 2 : Assemble the pergola frame

2.1 Assemble one bay pergola frame

2.1-1 Fasten the gutter
    with post

2.2-2 Loosen these two screws

5

4

the junction
2.2-4 Fasten the
    screw first

2.2-5 Fasten the screws at
    up and botton of gutter

A-1
2.2. Assemble the other bay frame as same as step 2

B-6

A-2

B-5

A-3

B-4
⚠注意：
框架安装好后，在打孔安装立柱
底座与地面固定的拉爆螺丝前，
必务按图复核尺寸

<20/23>

Install the remain work as same as previous steps

Tips:
1.When you settle the blades ,you should fasten the blade pivot
   covers when each 3 pcs of blades settled

10

9
screw the blade
pivot covers

2.When the blade vertical to wall ,you should install the again wall
   side driven rod first. and input power to open the blades to fix the
   wall mounted side driven rod throgh blade gaps

⚠Tip:
Attention:the power must be cut
down during the installation
2.2
Install the driven road when
the blade open

2.3 Install the cover
through the blade gap

<21/23>
Trouble shooting

malfunction	solutions
motor and led lights don't work	1. check the cables connect if correct 2. check if there is an avaliable voltage for pergola : 110V or 220V 3. check the remote if learn to match the control system 4. check the remote battery is work or not 5. check the control system has power output or not
can not open the blades	1. check the motor is working or not 2. check the driven rod if installed successfully 3. check the driven blade connected the motor or not
water leak at fan beam position	1. check the connection if do silicone sealant dealing
remote doesn't work	1. press the learn button within 5 seconds when the motor input power 2. check the remote battery is avaliable
can not link to APP	1. ensure you read the manual of tuya app link 2. you should remove the previous phone record then you can connect again

<22/23>

Care and Maintenance

CARING FOR YOUR PERGOLA

   Structure surface coated with the thermosetting powder coating must be cleaned once a year to maintain their original appearance
Thermosetting powders are sensitive to :
1. Physical friction ,hard impact ,extrusion ,chemicals including alkaline solvent and acidic solvent.
2. Natural elements such wind,rain ,snow ,and prolonged sunlight .The exterior of the pergola may deteriorate over time and this will not be covered under the warranty.

CLEANING YOUR PERGOLA
1. Do not use a scouring pad ,cream cleaner ,abrasive sponge ,iron wire ball ,or colored cloths.
2. Recommended : soft sponge , soft sand-free cloth ,cotton wool , cotton ,or-non-woven paper (white only)
3. Do not use corrosive products such as acidic or alkaline cleaners , It is recommended to wash with neatral PH detergent water and then wipw it with a cloth to keep it try.
4. When cleaning with high -pressure equipment, the same precautions must be taken when cleaning the car body :distance ,nozzle type ,water temperature ,and pressure should all be considered.

USE REMINDER

   After the installation is complete ,check that the screw are tight, Remember to check the screws at least once per year
1. Regularly check the sealing consitions to ensure the seals or other companents don not leak.
2. Regularly cean up debris sich as fallen leaves on the pergola to prevent blockage of the drain.
3. Restrictions on use :Watertigh systes ,although effective ,are not designed to ensure complete water proofing ,Heavy rain and strong winds may damage the pergola ,Any damage incurred will not be covered under the warranty.

Letter of thanks

Dear Customer :
  We appreciate your recent purchase .We really hope you can enjoy the happy time with your loved ones and friends under our stylish aluminum pergola .
  We know that you could have bought from any one of our competitors ,but you choose us .For that ,and all of your previous purchases ,we wanted to say thank you ,You are a valued customer and we'll continue to strive for the best customer service we can offer .If you care to share any future stories from the road ,we ⌈ love to hear them .Thanks again !

Gratefully

LIVING CULTURE
