Step 3: Fixed the door frame

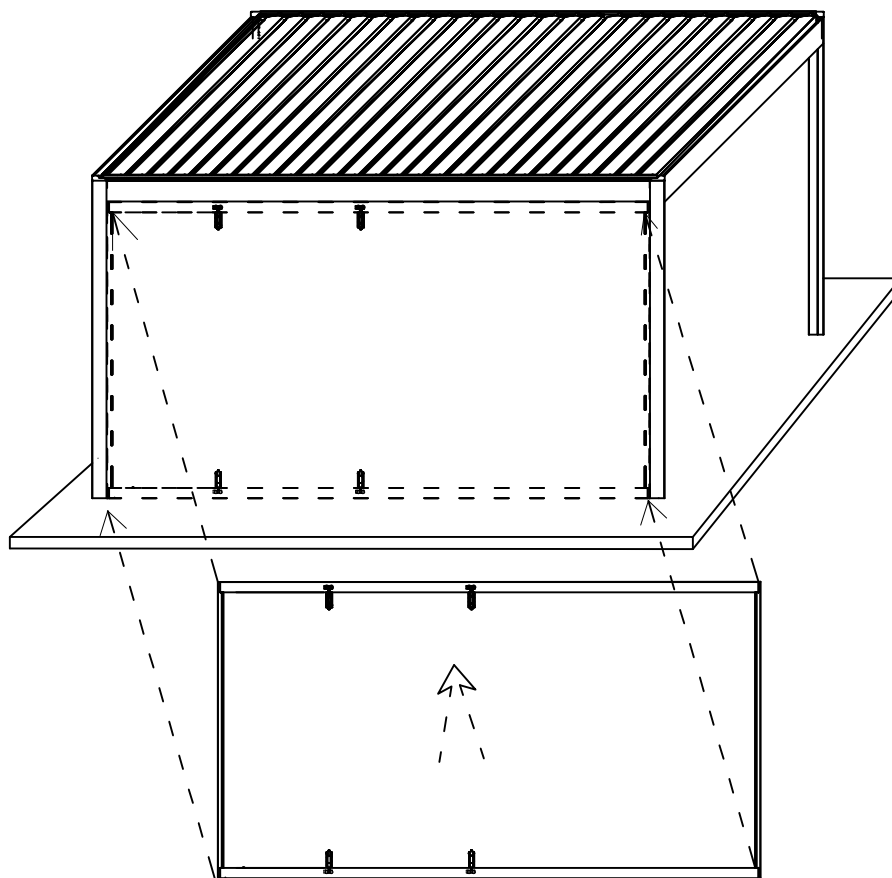

Ensure the installation position meets the requirement (use the gradient to inspect the inner width)

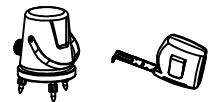

Step 4: 4.1 Take out the upper frame, track, two side frames, install the pulley into the upper frame and track before assemble the shutter doors frame by self tapping 4.8*50 screws.

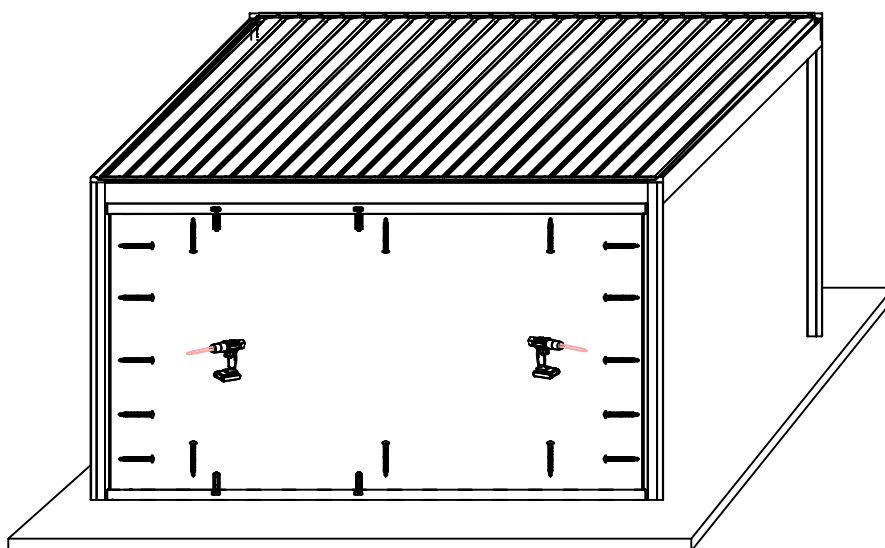

4.2 Put the door frame into the position, use the gradient to ensure the shutter doors frame is horizontal and vertical.

Use gradient to ensure the horizontal and vertical level

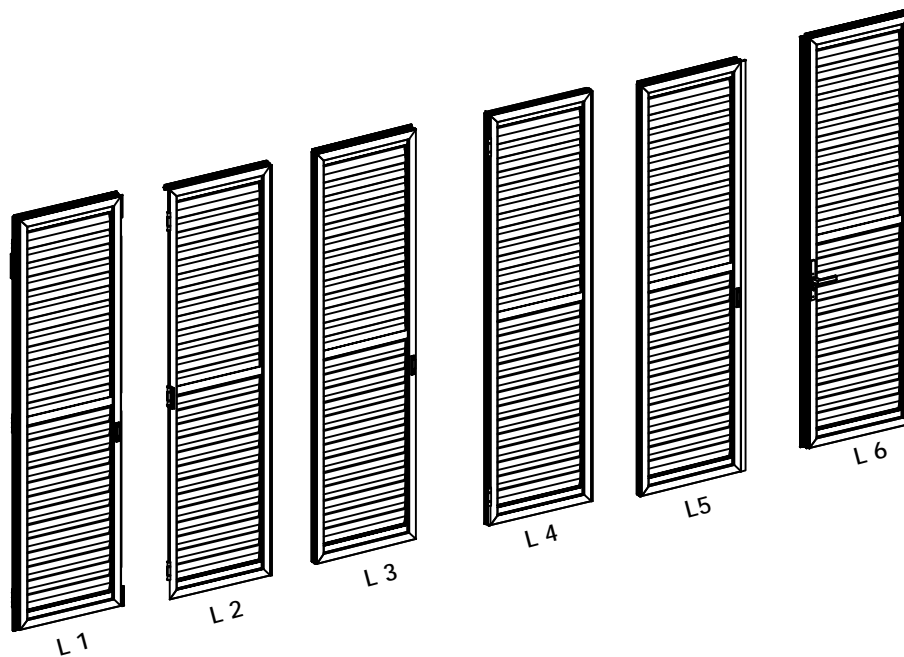

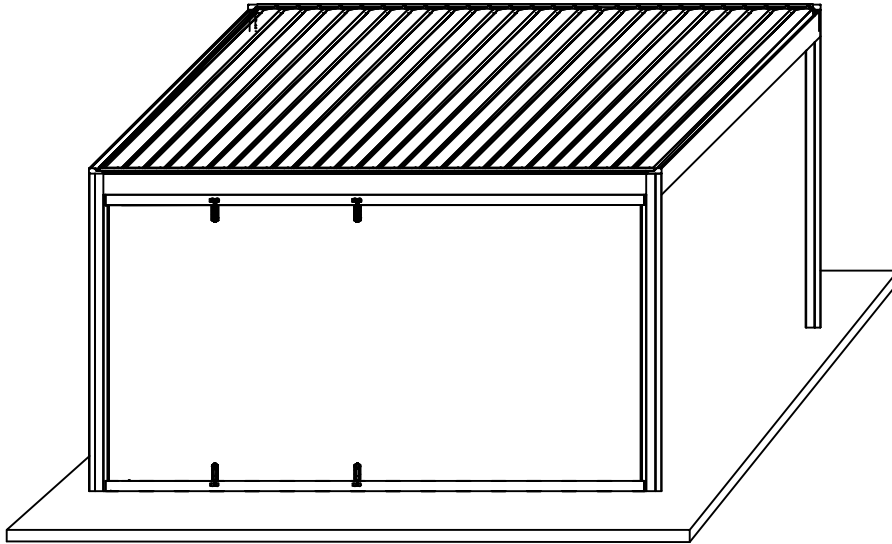

4.3 Adjust the shutter door frame and use 4.2*38 drilling screws to secure it directly to the pergola post

Step 8: Install the lock and door clip

Step 9: After installing the lock and door stopper, check the smoothness of the door operation

Step 10: After all the steps, ensure the door function and place silicone sealants between the door frame and pergola post.

Step 11: After the installation, clean up the scene.

| Common Problem | Solution |
|--|---|
| The door frame not in a horizontal or vertical level | Use the electric spirit level to check the horizontal or vertical level |
| Not smooth when open/close door | Check the distance between door sash bottom and track, make sure it is 14mm |
| Cannot lock up the plug | Check whether the top and bottom latch lock seats are loose or displaced. |
| Too hard to open/close door | Check the door sash droop or not (adjust the track nut) |
| Daily Maintance: 1. Clean the debris on the track daily to ensure that the track is clean and free of debris 2. Spray lubricant on tracks, pulleys, lock tongues, and hinge shafts. | |
