Surviving Transphobia

By *Laura A. Jacobs LCSW*

NEW

The transgender and gender nonbinary community is forever under siege. Institutional transphobia is enacted by those who would return us to the shadows, the closets, or worse. *Surviving Transphobia* is an anthology by transgender and gender nonbinary celebrities and experts on endurance during times of severe hostility. We share the moments when we were vulnerable, were bullied, had needs dismissed, or were discriminated against, revealing our determination and how we have (sometimes) managed to thrive. We offer loving support as you brave agony and seek joy.

We also speak to our allies. We are activists, actors, athletes, authors, lawyers, doctors, nurses, therapists, sex workers, clergy, diplomats, and military veterans. We are of many ethnicities. We vary socioeconomically, educationally, and geographically. Some are neurodivergent. Several are disabled or have chronic illnesses. A few are HIV+. A small number were born elsewhere. We have survived, here's how. And if we can survive... so can you.

Gender is Really Strange

By Teddy G. Goetz, Sophie Standing

What does it mean to be trans? Non-Binary? Gender Diverse? What parts of gender come from society? What parts come from within? How much is biology, and how much is socialization? Part of the Really Strange series, this science-based graphic medicine comic addresses these questions and more, revealing the inherent messiness of gender identity and sex. A mysterious amalgam of biology and society, inherently sensed, yet societally defined, the complexity of gender is revealed through examining neuroscience, biology, hormones, mental health, behaviour and how much of gender comes from society. Exploring theories, thinkers, terminology, history, and gender cultures around the world and across different religions, this easy-to-understand and engaging book will help you to question perceived norms and engage critically with your own gender identity.

All the Things They Said We Couldn't Have Stories of Trans Joy

By Tash Oakes-Monger

'Transition has not been something linear for me, my joy has come in seasons.' Now, more than ever, trans people deserve to hear stories of joy and hope, where being trans doesn't have to be defined by fear and dysphoria, but can be experienced through courage, freedom, and the love and acceptance of their chosen families. Through a series of uplifting, generous and beautifully crafted vignettes, T. C. Oakes-Monger gently leads you through the cycle of the seasons - beginning in Autumn and the shedding of leaves and identity, moving through the darkness of Winter, its cold days, and the reality of daily life, into Spring, newness, and change, and ending with the joy of long Summer days and being out and proud - and invites you to find similar moments of joy in your life.

Out
A Parent's Guide to Supporting Your LGBTQIA+ Kid Through Coming Out and Beyond

By *John Sovec*

The coming out process for LGBTQIA+ adolescents can be a terrifying moment, not only for themselves, but also for their family and friends. When intense emotions are running the gamut of concern, shock, joy or even anger and acceptance, it can be tricky to process how you feel while giving your child the support they need. Offering essential guidance and advice, this book is here to help you with chapters that explore LGBTQIA+ terminology, understanding the coming out process, effective communication strategies, talking to your LGBTQIA+ kid about sex, the parents process of acceptance, and the family coming out process. Importantly, this guide also covers a wide range of lesser-known orientations such as pansexuality and asexuality as well as dedicated chapters on trans youth and the often-overlooked grieving process for parents with stories of lived experience throughout. With a unique three step strategy, you and your family can support your LGBTQIA+ child's newly shared identity, create a stronger family unit, and move towards a more open, affirming relationship based on honest communication and understanding.
