Motivational Interviewing and CBT

Combining Strategies for Maximum Effectiveness

Sylvie Naar and Steven A. Safren
Foreword by William R. Miller

NEW IN PAPERBACK

Motivational Interviewing and CBT

Combining Strategies for Maximum Effectiveness

By Sylvie Naar, Steven A. Safren

Providing tools to enhance treatment of any clinical problem, this book shows how integrating motivational interviewing (MI) and cognitive-behavioral therapy (CBT) can lead to better client outcomes than using either approach on its own. The authors demonstrate that MI strategies are ideally suited to boost client motivation and strengthen the therapeutic relationship, whether used as a pretreatment intervention or throughout the course of CBT. User-friendly features include extensive sample dialogues, learning exercises for practitioners, and 35 reproducible client handouts that can be downloaded and printed in a convenient 8½" x 11" size.

FOURTH EDITION

MOTIVATIONAL INTERVIEWING

HELPING PEOPLE CHANGE AND GROW

William R. Miller
Stephen Rollnick

NEW

Motivational Interviewing 4/e

Helping People Change and Grow

By William R. Miller, Stephen Rollnick

Now in a fully rewritten fourth edition, this is the authoritative presentation of motivational interviewing (MI), the powerful approach to facilitating change. It has been updated and streamlined to be even more user-friendly as a practitioner guide and course text. MI originators William R. Miller and Stephen Rollnick elucidate the four tasks of MI—engaging, focusing, evoking, and planning—and vividly demonstrate what they look like in action. A wealth of vignettes and interview examples illustrate the dos and don'ts of successful implementation in diverse contexts. The book reviews the evidence base for the approach and covers ways to assess the quality of MI. The companion website provides reflection questions, annotated case material, and additional helpful resources.

Building Motivational Interviewing Skills

A Practitioner Workbook

SECOND EDITION

David B. Rosengren

Building Motivational Interviewing Skills 2/e

A Practitioner Workbook

By David Rosengren

Many tens of thousands of mental health and health care professionals have used this essential book--now significantly revised with 70% new content reflecting important advances in the field--to develop and sharpen their skills in motivational interviewing (MI). Clear explanations of core MI concepts are accompanied by carefully crafted sample dialogues, exercises, and practice opportunities. Readers build proficiency for moving through the four processes of MI--engaging, focusing, evoking, and planning--using open-ended questions, affirmations, reflective listening, and summaries (OARS), plus information exchange. In a large-size format with lay-flat binding for easy photocopying, the volume includes more than 80 reproducible worksheets.

Schema Therapy

A Practitioner's Guide

By Jeffrey E. Young, Janet S. Klosko

Designed to meet the formidable challenges of treating personality disorders and other complex difficulties, schema therapy combines proven cognitive-behavioral techniques with elements of other widely practiced therapies. This book--written by the model's developer and two of its leading practitioners--is the first major text for clinicians wishing to learn and use this popular approach. Described are innovative ways to rapidly conceptualize challenging cases, explore the client's childhood history, identify, and modify self-defeating patterns, use imagery and other experiential techniques in treatment, and maximize the power of the therapeutic relationship.

Experiencing Schema Therapy from the Inside Out

A Self-Practice/Self-Reflection Workbook for Therapists

By Joan M. Farrell, Ida A. Shaw

This unique resource helps therapists build their skills in schema therapy (ST) by applying ST techniques to themselves and reflecting on the experience. Designed for use by individuals or groups, the book harnesses the power of self-practice/self-reflection (SP/SR), an evidence-based training strategy. Twenty modules take therapists step by step through using ST to address a professional or personal problem--from establishing safety and creating a self-conceptualization to implementing mode change work, including cognitive, experiential, and behavioral pattern-breaking interventions. In a convenient large-size format, the book is illustrated with vivid therapist examples and features numerous reproducible worksheets and forms for doing the SP/SR exercises.

Schema Therapy with Children and Adolescents

A Practitioner's Guide

By Peter Graaf, Ruth A Holt

This book presents the first English language guide to adapting schema therapy (ST) for children and adolescents. Written by the developers of the approach, it presents a wide range of innovative child- and parent-specific techniques, with detailed guidance on how to apply them across five key developmental stages from infancy to young adulthood. Case studies bring the material to life, and the focus extends beyond the core therapeutic relationship to what the authors call schema coaching - encouraging parents and carers to consider how their own entrenched ways of thinking, behaving and responding may contribute to or exacerbate a young person's issues and needs. In adult schema therapy, therapists differentiate between child modes, parental models, coping modes and the Healthy Adult mode.

Creative Ways to Help Children Regulate and Manage Anger

Ideas and Activities for Working with Anger and Emotional Regulation

By Fiona Zandt, Richy K. Chandler

Support children to better understand and manage their anger with this practical guide of therapeutic activities. From exploring a child's first steps in therapy to helping parents and carers with their responses, this book provides practical advice for working with children aged 4-12 and families navigating issues of anger and emotional regulation. The book includes over fifty playful, practical, and purposeful activities to use in therapy. Grounded in theory and research around anger in children, the activities include clear therapeutic rationales for practitioners, considerations for older and younger children, suggestions for the inclusion of parents and carers, and adaptations for online practice.

Creative Ways to Help Children Manage BIG Feelings

A Therapist's Guide to Working with Preschool and Primary Children

By Fiona Zandt, Suzanne Barrett

To be able to effectively offer therapy to children, complex therapeutic concepts need to be presented in an appropriate and engaging manner. This practical guide provides clinicians with a way in which to do so, with numerous games and imaginative activities to help children aged 4-12 to express and understand their feelings. Part I provides a comprehensive guide to working therapeutically with children and families, while Part II outlines 47 creative therapeutic activities. Each activity is presented with clear instructions using inexpensive and readily available resources and the objective and rationale of each activity is given, making it easily applicable.

Creative Ways to Help Children Manage Anxiety

Ideas and Activities for Working Therapeutically with Worried Children and Their Families

By Fiona Zandt, Suzanne Barrett

This book sets out therapeutic activities to help children aged 4-12 years and their families to better understand and manage anxiety. It explains how to work with anxious children, providing a framework for assessment and therapy that draws on CBT, ACT and narrative therapy approaches. Lots of practical tips for therapists are included and important developmental considerations are discussed, including adapting therapy for children with developmental difficulties, and working with families and schools. Over 50 playful therapeutic activities are included, which have been developed through the authors extensive work with children, giving children an arsenal of coping strategies.
