Hypoallergenic

dogslikefish

OUR PRODUCTION BASED ON THE FOLLOWING PRINCIPLES:

- **100% natural** raw materials and ingredients
- **no preservatives and dyes**
- most of the products are **made by hand**

THE ADVANTAGES OF OUR PRODUCTS:

- products are monoprotein products and hypoallergenic
- some of the products (Salmon & Cod skin, Salmon & Cod sticks) are a unique symbiosis of fish protein (Cod) and natural Omega polyunsaturated fatty acids (Salmon)
- processing of our products is carried out in special infrared ovens, which, unlike other drying devices, allow to save 70% -80% of the nutrients and aromas contained in fish.

Complementary feed from minced Cod

STICKS / STRIPES / CUBES

Net weight: 70g, 500g, 1000g, 5 kg.

Our products are made of **minced Cod** with help of special drying regime. Thus, protein (up to 66,7%) contained in fish is preserved and is an excellent dietary supplement to our pets' main diet. Minced fish contains fish cartilage that is a rich source of phosphorus and calcium, which help strengthen bones and teeth. It also helps to healthy muscle and tissue growth. Cartilage is a source of glucosamine and chondroitin that helps keep joints healthy.

ANALYTICAL CONSTITUENTS

Ingredients	Fish – minced Cod 100%
Energy value per 100 g of product	304 Kcal / 1285 kJ
Protein (raw)	66,7%
Fat (raw)	3,5%
Carbohydrates	0,2%
Fiber (raw)	2,7%
Ash (raw)	24,28%
Moisture content	>10%
Omega 3	1,2%
Omega 6	0,2%
Omega 9	0,8%

RECOMMENDATIONS FOR FEEDING

2-3 sticks (stripes), or, 3-5 cubes per day depending on size of a dog. A dog must always have access to a source of a fresh water.

Complementary feed from Salmon skin

ROLLS / PIGTAILS

Net weight: 70g, 500g, 1000g, 5 kg.

We use the **skin of Salmon** caught in the Barents and North Seas. Salmon skin has a high content of polyunsaturated fatty acids Omega 3 (3,7%), Omega 6 (4,0%), Omega 9 (12,1%). Due to its rough structure, natural Salmon skin complementary feed replaces teeth cleaning, removes plaque and calculus, and massages the gums. In addition, dried fish skin supplement is great for puppies during teething!

RECOMMENDATIONS FOR FEEDING

2-3 rolls, or, 1-2 pigtails a day depending on size of a dog. A dog must always have access to a source of fresh water.

ANALYTICAL CONSTITUENTS

Ingredients	Fish - 100% Salmon skin
Energy value per 100 g of product	286 Kcal/ 1207 kJ
Protein (crude)	61,3%
Fat (crude)	26,6%
Carbohydrates	0,4%
Fiber (crude)	<0,5%
Ash (crude)	6,60%
Moisture content	< 5%
Omega 3	3,7%
Omega 6	4,0%
Omega 9	12,1%

Complementary feed from Cod skin

PIGTAILS / STICKS / CUBES

Net weight: 70g, 500g, 1000g, 5 kg.

Cod skin, like Cod itself, is rich in proteins, but it contains even more protein - up to 83% !!!, which are absorbed by 93% – 98% while meat proteins - by 87% – 89%.

Cod skin proteins are rich in important essential amino acids.

Our Cod skin products are handmade using a special oven-drying regime to retain 70% - 80% of the nutrients and aromas contained in the fish. Cod skin products are a wonderful alliance of easily digestible protein and essential amino acids. It is a product that allows your pet to strengthen and cleanse his teeth and massage the gums. In addition, the dried fish skin supplement is great for teething puppies!

RECOMMENDATIONS FOR FEEDING

Depending on the size of the dog - 2-3 pigtails/ sticks or 4-5 cubes per day.

Protein (crude)	83 %
Fat (crude)	3,7 %
Carbohydrates	0,4 %
Fiber (crude)	1,2 %
Ash (crude)	9,08 %
Moisture content	<6 %
Omega 3	0,7 %
Omega 6	0,5 %
Omega 9	1,4 %

Complementary feed from Redfish

CROISSANTS / STICKS / CUBES

Net weight: 70g, 500g, 1000g, 5 kg.

Redfish is definitely a fish delicacy for your pets! Redfish is a good source of proteins (over 60%); owing to the high B12 content, the redfish skin promotes the synthesis of DNA, myeline, is an antioxidant, participates in lipid metabolism, raises cell oxygen consumption. The availability of essential amino acids Omega (up to 9.2 %) makes the redfish skin an excellent, natural supplementary feed for your pets.

The elastic, firm, but relatively soft redfish skin is excellent for cleaning plaque and ideal for puppies during the tooting period. Redfish skin products, similarly to other products of ours, are made manually. A special drying technique enables to keep not only up to 70-80% nutrients, but also an appetizing, natural shrimp flavor, which will repeatedly appeal to your pets. Redfish skin products include croissants for large and medium sized dogs.

RECOMMENDATIONS FOR FEEDING

Depending on the dog size - 2-3 croissants (sticks) or 3-5 cubes a day.
Always provide enough fresh drinking water!

ANALYTICAL CONSTITUENTS

Ingredients	Fish - Redfish 100%
Energy value per 100 g of product	313 Kcal / 1315 kJ
Protein (raw)	60,4 %
Fat (raw)	9,1 %
Carbohydrates	6,5 %
Fiber (raw)	0,5 %
Ash (raw)	16,1 %
Moisture content	7,9 %
Omega 3	9,2 %

Complementary feed from whole fish

dogslikefish

The team of the company consists of specialists with many years of experience in fish processing who are devoted pet lovers.

Latvia, a country with access to the sea, has a long tradition and culture of processing and consuming fish products.

Taking into consideration the changing situation in the field of nutrition and shift towards natural and healthy nutrition and lifestyle, we want our pets to eat the same we do – healthy and properly; that is why fish products are particularly significant for pet nutrition.

We value the quality and naturalness of our products, therefore, it is no coincidence that we have chosen an eco-friendly place on the coast of the Gulf of Riga in the well-known resort city Jurmala as our production site.

Having a decade of experience in fish processing, our specialists were able to successfully transfer their knowledge to production of supplementary pet food from fish.

We hope that it will become an essential tasty and healthy part of your pet nutrition.

OUR GOAL

is to contribute to the health of our pets!

OUR MISSION

is to introduce high-quality, natural dog supplementary feed made of fish to the market!
