

ORA Clinic Wrinkle Relaxer Pre Care

Wrinkle Relaxer Pre Care

BEFORE YOUR TREATMENT

Do not wear makeup on the day of treatment

Avoid skin, beauty, aesthetic treatments (including but not limited to: eyebrow tinting, waxing, blading, facials, peels, microneedling, laser) for two weeks prior to your wrinkle relaxer treatment.

Avoid alcohol for 24 hours prior to your wrinkle relaxer treatment.

Unless prescribed by your GP or medical practitioner, avoid aspirin, ibuprofen, fish oils, vitamins A-E for one week prior to your wrinkle relaxer treatment.

Familiarise yourself with the wrinkle relaxer information provided in our client portal, the FAQ's and consent form. Please contact the clinic if you have any questions.
