

LETTERCUT

lowercase letter template 12 inch BOLD RETRO letters

INSTRUCTIONS:

1. Print template pages at full size for accuracy.
2. Assemble template.
3. Tape the template in place.
Use a level to ensure your template is straight.
4. Pre-drill the screw holes - using house numbers as a guide.
5. Fasten with screws through the number and spacer.

Letter alignment:

12 inch letters are printed on multiple pages. The center of each letter is where the paper meets or the solid lines on the top and bottom of page so you can easily align your numbers vertically or horizontally.

When you assemble your template - tape pages together so these centers match.

Heights vary slightly - Numbers and letters are all designed for visual appeal. A slight variation in number height and width is intentional.

Letter spacing:

These dotted lines create even spacing of letters

Fold template on the dotted line and tape papers together so dotted lines meet.

*Easily add or subtract space by adding or decreasing space between dotted lines.

Suggested spacing between 12" tall letters:

For horizontal placement is 2" - 2.5" between letters.

For vertical placement - allow 2" - 3" between letters.
