

LETTERCUT

lowercase letter template 8 inch BOLD RETRO

INSTRUCTIONS:

1. Print template pages at full size for accuracy.
2. Assemble template.
3. Tape the template in place.
Use a level to ensure your template is straight.
4. Predrill the screw holes - using house numbers as a guide.
5. Fasten with screws through the number and spacer.

Lining your letters up:

These letters are printed on multiple pages. The center of each letter is where the paper meets to easily align your letters horizontally. Use the solid lines on the top and bottom of page to align for vertical installation.

When you assemble your template - tape pages together so these centers match.

Heights vary slightly - Numbers and letters are all designed for visual appeal. A slight variation in number height and width is intentional.

Spacing your letters :

These dotted lines create even spacing of letters. Fold template on the dotted line and tape papers together so dotted lines match. **These are guidelines. You are free to add or subtract space by adding or decreasing space between dotted lines so that it is visually pleasing to you.*

Suggested spacing between 8" tall letters:
For horizontal placement is 1.5 - 2" between letters.
For vertical placement - allow 1.5 - 2.5" between letters.
