House Number Template 8 inch THIN MODERN

INSTRUCTIONS:

1. Print template pages at full size for accuracy.
2. Assemble template.
3. Tape the template in place.
Use a level to ensure your template is straight.
4. Pre-drill the screw holes - using house numbers as a guide.
5. Fasten with screws through the number and spacer.

Lining your numbers up:

1. **Horizontal:** This horizontal line marks the center. Use this for alignment when mounting your numbers horizontally
2. **Vertically and centered:** Lines on the top and bottom of pages mark the vertical centers of the numbers.
3. **Vertically and right aligned:** Use the small dotted line to the right of each number to align your numbers.

Heights vary slightly - Numbers and letters are all designed for visual appeal. A slight variation in number height and width is intentional.

Spacing your numbers :

These dotted lines create even spacing of numbers
Fold template on the dotted line and tape papers together so dotted lines match.
*Easily add or subtract space by adding or decreasing space between dotted lines.

Suggested spacing between 8" tall numbers:
For horizontal placement is 1.5 - 2" between numbers.
For vertical placement - allow 1.5 - 2.5" between numbers.
