

# LETTERCUT

## TEMPLATE FOR No. LETTERS 5" 8" + 12" Thin Modern

### INSTRUCTIONS:

1. Print templates as full size in printer settings.
2. Assemble template.
3. Tape the template in place. *\*Use a level to ensure your template is straight.*
4. Pre-drill the screw holes - using house numbers as a guide.
5. Fasten with screws through the number and spacer.

### **Lining your numbers up:**

Solid lines on the top and sides of page mark the centers of the numbers so you can easily align your numbers vertically or horizontally. When you assemble your template - tape pages together so solid lines line up.

**Heights vary slightly** - Numbers and letters are all designed for visual appeal. A slight variation in number height and width is intentional.

**Because of size - 12" letters are printed on 2 pages.**

**Print pages and tape together with no overlap. Center line is where pages meet.**

### **Spacing your numbers :**

These dotted lines create even spacing of numbers  
Fold template on the dotted line and tape papers together so dotted lines match.  
*\*Easily add or subtract space by adding or decreasing space between dotted lines.*

# LETTERCUT
