

DAN PEARCE

HOPE

Having exhibited his work since 2013, Dan has rapidly become one of the UK's most talked about and collectable artists. His unique artworks blend graffiti, collage, traditional painting and textured resin while incorporating unusual objects such as smashed glass, neon lights and dollar bills to create his much sought-after pieces. Dan will be presenting a new body of work which includes an exciting collaboration with Prodigy frontman and artist Maxim.

The pair will present the powerful and poignant Hope project. Together they will launch 50 limited edition sculptures, which will each contain an exclusive, four-track Maxim EP. The sculptures will accompany the release of a short film, featuring Maxim and starring Pearce's son, the film will tell the story behind the pair's sculpture.
