

Gill Athletics football goal posts are available in a variety of configurations. All steel goals are constructed of 4.5" diameter steel offset poles and 3.5" diameter steel crossbars with 2.375" diameter aluminum uprights. The durable powder coat finish is available in either white or optic yellow.

Each goal is designed for easy leveling of the crossbar and uprights. Goals with 8ft offsets allow a soccer goal to fit underneath the crossbar.

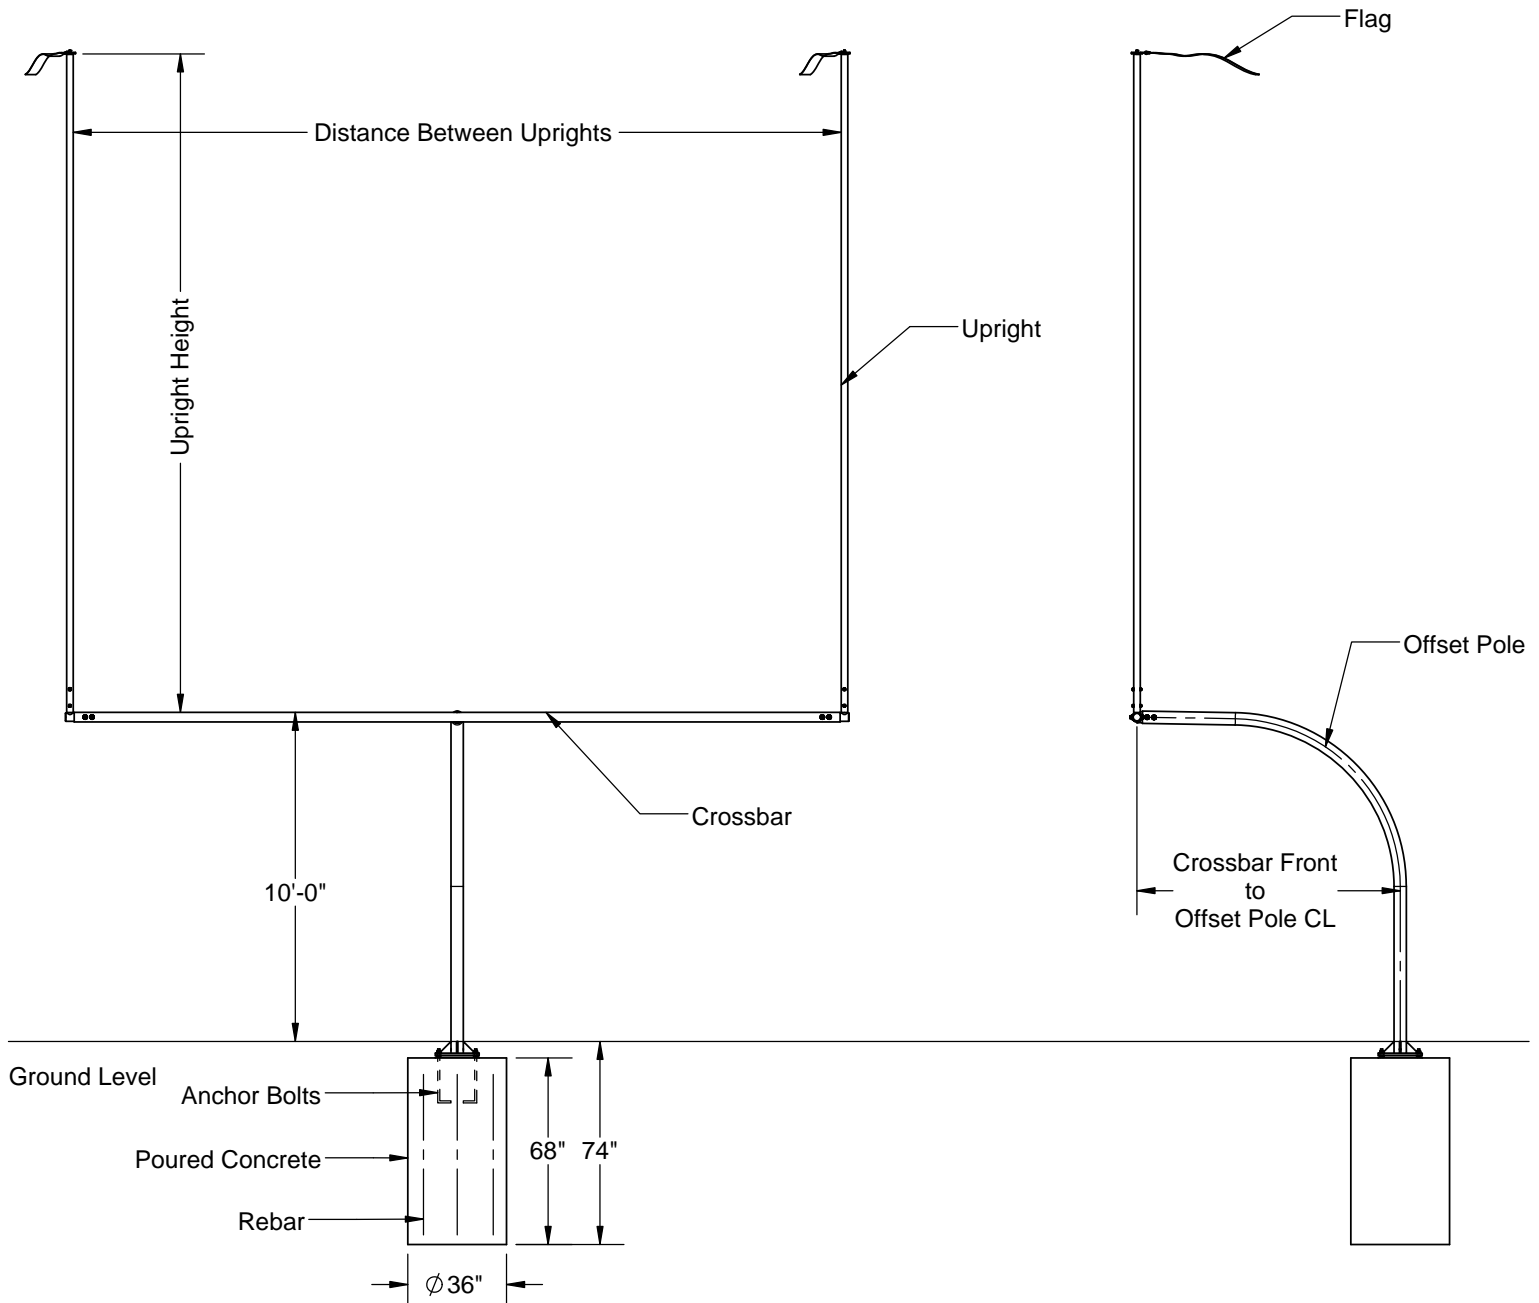

Football goals are sold in pairs. Plate mounting kits (F35550) are sold separately.

Offset Pole: 4" Sch 40 Steel Pipe
 (4.5" OD)

Crossbar: 3" Sch 40 Steel Pipe
 (3.5" OD)

Upright: 2" Sch 40 Aluminum Pipe,
 (2.375" OD) 6061-T6

Note: Local soil conditions will determine actual size of concrete foundations.

Steel Football Goal Specification Table

Part #	Crossbar Front to Offset Pole CL	Distance Between Uprights	Upright Height
FB46120CXX	6' - 1 - 3/4"	23' - 4"	20'
FB48120CXX	8' - 1 - 3/4"	23' - 4"	20'
