TOOLS NEEDED

- #3 HEX KEY
- 2 CRESCENT WRENCHES
- Unpack all parts and check against parts list to ensure that all have been included.
- 2. Assemble three 4" swivel casters (5) into base frame (1).
- Assemble upright weldment (2) to base frame (1) using 2¹/₄" lg. machine bolt (9), washer (11) and hex nut (12).
- Assemble upper support tube assembly from Step No.
 to the upper support tube (3) using two 1½" lg. machine bolts (10), washers (11) and hex nuts (12).
- 5. Assemble net holder (4) to the upper support tube (3) using net holder bolt (6), two net holder washers (7) and net holder nut (8). See Detail "B" for proper location of all parts. Tighten nut (8) until snug do not overtighten, as net holder (4) must be allowed to spin freely, without wobble.
- 6. Secure net holder (4) to net holder bolt (6) using the set screw (13).
- 7. Check operation of net holder (4) with crank assembly (14). Net holder should spin freeley, but without any wobble. Tighten or loosen nut (8) from Step No. 5 as required.
