CODE ZERO WALL SCONCE (IP44)

PRODUCT CODE: CODCZE

Installation guide

24V - Do not wire light fitting directly to mains power.
DANGER electric shock risk. Installation must be conducted by a licensed electrician.

**Stage 1: Install Driver**

TCI Mini Jolly 125400
24V Constant Voltage
Minimum cut-out hole diameter: 55 mm
Size: 111 x 22 x 52 mm
Plastic case: IP20 rated

1: Select driver location, ideally a remote location that is accessible such as an attic or cupboard. Affix driver to solid surface.
2: Unscrew terminal cover and unclick from sides.
3: Check DIP switches are set to required position - if not, set to pattern as shown above using a small screwdriver.
4: Ensure mains supply is switched off. Connect 120V-240V Load and Neutral supply to the left side of the driver as shown.
5: Terminate earth if present.

6: **Option A:** While at the framing stage, run a 2x core cable from the SEC output on the driver, to the desired position of the luminaire.

   **Option B:** If the driver must be located behind the luminaire. Connect +/- from LED luminaire to right side of driver in the SEC output.

7: **(Optional, not supplied)** If dimming is required, connect leads for 1-10V or Push Dimmer as illustrated.

8: Reattach terminal cover and screw closed.
STAGE 2: INSTALL FITTING

24V - Do not wire light fitting directly to mains power.

Ensure gloves are worn when handling natural brass products.

1: Remove all items from box.

2. Install driver as shown on opposite page.

3: Using HEX key provided, remove M3 brass screws from top and bottom of fitting.

4: (Optional) If installing to plaster board pre-drill and install white wall plugs into wall.

5: Install white wall plate to wall using timber screws provided.

6: Connect +/- power supply from LED luminaire to TCI Mini Jolly driver.

7: Install fitting onto wall bracket and secure M3 brass screws to top and bottom of fitting.

8: Wipe down fitting with clean dry cloth.

9: Test fitting.
