DUOMO PICCOLO STEM WALL LIGHT

Installation guide

DANGER electric shock risk. Installation must be conducted by a licensed electrician.

STAGE 1: WIRE FITTING

DANGER electric shock risk. Installation must be conducted by a licensed electrician.

STAGE 2: INSTALL FITTING

Ensure gloves are worn when handling natural brass products.

- 1: Remove all items from packaging.
- 2: Drill <20mm hole in plasterboard at desired finished height and locate 2x core cable.
- 3: *(Optional)* If installing a plaster board with no framing behind, pre-drill and install white wall plugs using the BASE PLATE as a template.
- 4: Affix base plate to wall using timber screws provided.
- 5: Pass wires through center of the BASE PLATE. Wire fitting as shown on opposite page.
- 6: Place stem into groove of base plate and affix TOP PLATE using M6 screws provided.
- 7: Screw on CAP.
- 8: Wipe down fitting with clean dry cloth.
- 9: Install E27 light bulb. (not provided)
- 10: Test fitting.
